

Hesperia

The Hesperia bollard is made entirely out of 10mm thick corten steel sheet.

Ground fixing is with suitable steel ground fixing anchors (not included), or by placing the extended end of the bollard 250 mm deep into concrete foundations.

The whole structure is sandblasted and treated with a unique oxidisation cycle finetuned by Metalco.

Specification:

200mm x 200mm
Height: 800mm
