

Innovative Modular Furniture Systems in Solid Surface

Isomi's award-winning reception furniture showcases original British design coupled with unrivalled manufacturing capability. Offering a complete solution for reception and public spaces, **Isomi's** pioneering modular furniture systems in solid surface material make specifying reception furniture effortless and cost-effective.

The collections in **Solid Surface** are designed to take full advantage of the many possibilities of this versatile material. **Isomi's** production process, which involves thermoforming the material to create compound forms, creates unique opportunities for producing high-specification, premium quality furniture with minimal lead times.

Designed by **Paul Crofts**, **Isomi's** standard off-the-shelf components tailor to a vast range of applications, from commercial office, education and healthcare to leisure and beyond. As such, **Isomi** sets a new standard in production furniture.

Working globally, **Isomi's** experienced team ensures that each individual project is delivered with the highest levels of efficiency and customer service. **Isomi** provides consistent solutions with a versatility that allows limitless application.
