# NBS SPECIFICATION GRIME TRACK ENTRANCE MATTING

## TYPICAL SPECIFICATION

**N10**

**General Fixtures/Furnishings/Equipment**

**300**

**Entrance Matting**

**40**

**Miscellaneous Fittings**

## Application

Internal and External High Traffic Areas

Can be combined within a two or more stage system within one mat.

DDA Compliant can be used in conjunction with wheelchairs and shopping trolleys.

Closed Construction and Open Construction Heel Safe

## Description

A matting consisting of strips of Fine Ribbed Rubber, secured between rigid silver aluminium scraper bars. Designed for indoor or outdoor use in shops, public buildings, schools, offices, hotels, leisure centres, train stations, bus stations and hospitals.

The matting can be supplied in virtually any size or shape but, for reasons of safe handling, it is recommended that mat sections, which can be butted together, do not exceed 2m<sup>2</sup>

The Panels interconnect on the front and back panel, the panels on the left to right can make up required by butting panels side by side. The Jaymart system allows for perfect rib alignment without the need for T Bars.

Alligator Track is 15mm thick and available in black only

Consult Jaymart Rubber & Plastics Ltd technical literature for details of the finishes available.

Jaymart Rubber & Plastics Ltd can also provide a design and specification service and it is recommended that they be consulted early in the design process.
