

LOUVRED PLANT / REFUSE STORE

Versatile, Weather-Resistant Storage with Enhanced Ventilation

The Louvred Plant/Refuse Store is a robust, large-capacity multi-functional outdoor storage solution designed to discreetly house waste bins, gardening equipment or potted plants. Built with heavy-duty 80 x 3 SHS galvanised steel framework and fully clad in louvre panels providing 80% visual screening, it combines durability with practical airflow management. The distinctive louvred design ensures adequate ventilation whilst maintaining complete visual screening. Featuring double-leaf swing gates with wide 1900mm and 2000mm openings, the store provides exceptional access for wheelie bins, multiple waste containers or substantial plant displays. Engineered for overground fixing to concrete slabs with welded baseplates, this versatile store integrates seamlessly into residential developments, commercial properties, and public spaces. Choose from various powder-coated RAL finishes to align with your project's requirements.

- › **Ventilated Louvred Design:** Louvre panels provide 36% free area ventilation whilst delivering 80% visual screening for bins or plants.
- › **Large Capacity Configuration:** 3600mm (W) x 4000mm (D) x 2060mm (H) accommodates multiple wheelie bins, waste segregation, or substantial plant collections.
- › **Heavy-Duty Framework:** 80 x 3 SHS steel posts with welded baseplates for permanent overground fixing to concrete slabs.
- › **Wide-Access Double Gates:** Double-leaf swing gates with 1900mm and 2000mm openings for effortless manoeuvring of bins or plant equipment.
- › **Galvanised Steel Construction:** Hot-dipped galvanised to BS EN ISO 1461:2022 for superior corrosion resistance and decades of service life.
- › **Powder Coated Finish:** Polyester powder-coated RAL colours for seamless architectural integration and enhanced durability.

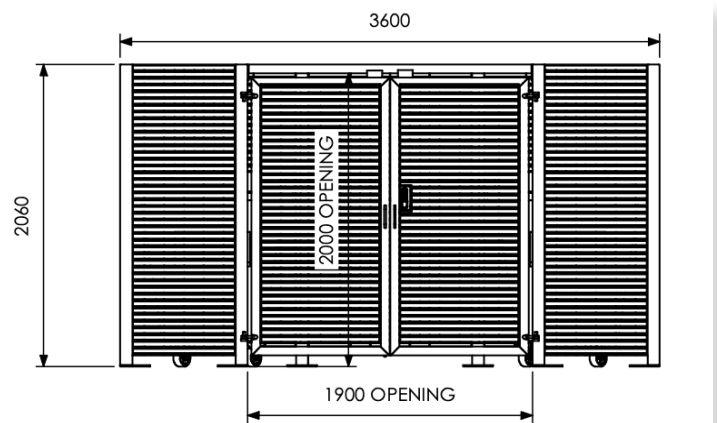

LOUVRED PLANT / REFUSE STORE

Our Louvred Plant/Refuse Store is fully aligned with modern planning and sustainability objectives and manufactured in Britain, supporting long-term development goals while delivering secure, ventilated storage for waste management or landscaping requirements.
