BRITAIN'S FINEST TIMBER WINDOWS & DOORS™

THE UK'S PREMIER MANUFACTURER OF HIGH QUALITY TIMBER WINDOWS AND DOORS

Our Conservation™ timber windows and timber doors appeal to both the aesthetic and functional requirements of architects, planning authorities, preservation societies and end-users alike. These products, including our timber sash windows, use the best of traditional features with a choice of deep moulded profiles, advanced timber section design and timber material.

The Conservation™ range is manufactured with factory fitted double glazing and three coats of white paint as standard. Conservation™ products are hand crafted and go through a series of sanding processes to achieve their traditional look. The resulting timber windows and doors offer the impressive performance of a high-end modern window or door, but with the unique traditional or contemporary aesthetic that Mumford & Wood has become renowned for.

MUMFORD & WOOD LIMITED IS THE UK'S LEADING MANUFACTURER OF QUALITY TIMBER WINDOWS & DOORS

Copyright © 2017 Mumford & Wood Limited. All rights reserved.

WE USE
SIBERIAN LARCH
 THE MOST NATURALLY
 DURABLE TIMBER ON THE
 PLANET

At Mumford & Wood we use engineered Siberian larch in our core window and door specification. Because of the location, growth is very slow producing timber with exceptionally tight growth rings. It is their closeness that results in an especially dense material which is naturally durable and able to withstand testing climatic conditions.

The Siberian larch used by Mumford & Wood has a density of more than 600 kg/m³ and needs no further treatment to resist fungal or insect decay.

CONSERVATIONTM RANGE

For traditional-style new-build projects our beautifully crafted ConservationTM Range delivers authentic detailing and designs that celebrate the original, whilst providing superb thermal and acoustic performance.

CLASSICTM RANGE

The ClassicTM Range of windows are designed specifically for more stringent planning areas.

HERITAGETM RANGE

Designed to replicate and replace original period windows, down to the very finest details.

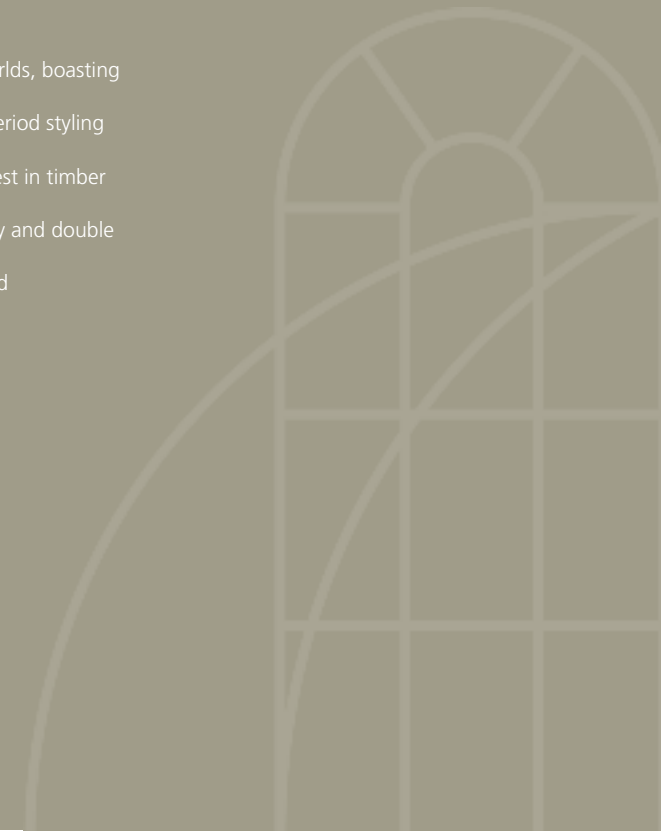

CONSERVATION™ BOX SASH WINDOWS

This is our highest specification range, designed to directly retro-fit in place of original box sash windows in older properties, or to create a traditional appearance in new-builds.

These windows offer the best of both worlds, boasting an enviable combination of authentic period styling and features, together with the very latest in timber window technology for improved security and double glazed for superb thermal and acoustic performance.

A favourite with architects, planning authorities and preservation societies, the Conservation™ box sash features traditional weights, heavy duty ball bearing pulley wheels and pre-stretched nylon cords that will not break or stretch.

The distinctive deep moulded internal profiles are available in a choice of ovolo, lamb's tongue and fine lamb's tongue profiles with elegant glazing bars to match.

 ARTIST RESIDENCE, LONDON
*Our beautiful timber Conservation™
 box sash windows have been specified
 in the complete internal and external
 conversion of this Regency period
 property in fashionable
 Pimlico Village, City of Westminster,
 now an eclectic, 10-bedroom
 boutique hotel.*

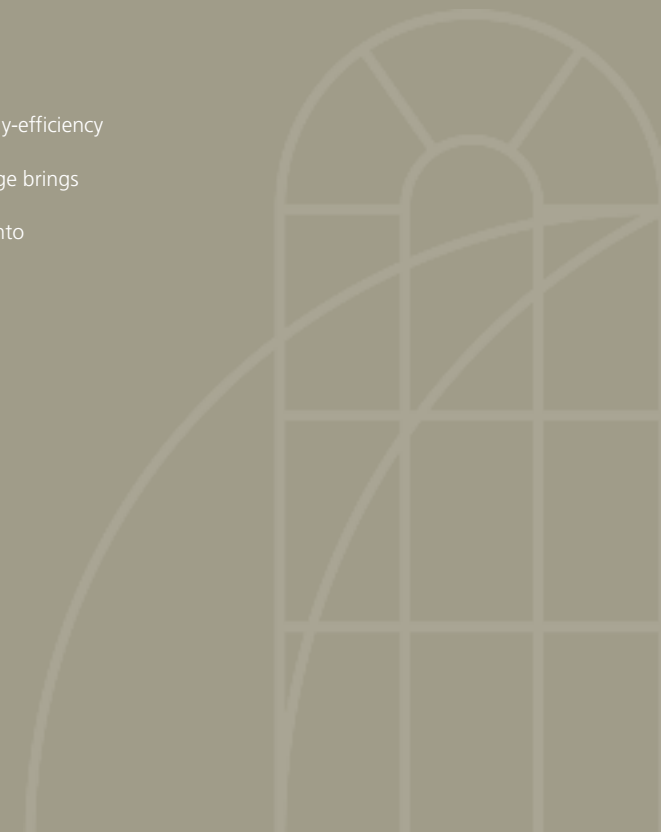

CONSERVATION™ SPRING SASH WINDOWS

Featuring pre-tensioned spring balances in place of traditional weights and pulleys, these double glazed windows offer classic period styling combined with the latest timber window technology and skilled craftsmanship.

Double glazed to exceed required energy-efficiency standards, this high specification range brings the much loved sash window into the 21st Century.

Conservation™ spring sash windows offer the perfect solution for new-build projects and buildings requiring a flush-reveal installation. These popular double glazed windows ensure ultimate standards of security, thermal and acoustic performance which exceed the requirements of current Part L Building Regulations.

In conservation areas, and in more modern buildings of traditional architectural style, we have designed a simple box cover to completely conceal the modern spring balance which achieves an authentic period aesthetic. The quick-fit staff and parting bead can be easily removed for quick and efficient redecoration.

MAIDA VALE, LONDON
*Beautiful Conservation™
Tilt & Slide sash windows have
been specified in this extensive
refurbishment of a six-storey
mansion block in affluent
Maida Vale, London.*

These specially adapted sash windows are hung on pre-tensioned springs and have a tilt and slide bottom sash which efficiently and conveniently tilts inwards into the room. Externally the window coordinates with all products in the Conservation™ collection, has slender meeting rails, fine glazing bars and traditional mouldings.

CATHERINE STREET, LONDON WC2

The elegant architecture of Covent Garden in London's West End boasts an eclectic atmosphere that attracts Londoners and many overseas visitors. Here double glazed Conservation™ casement windows, some with curved heads, others in a bay configuration with decorative fanlights above, closely replicate the originals.

CONSERVATION™ CASEMENT WINDOWS

A high performance casement window range offering traditional sightlines that coordinate with the full Conservation™ suite of products have a flush-line traditional appearance of casement to frame.

Ideal for both older properties and new-build projects, every window is made-to-order to your specific design.

Choose the size, number of panes, with or without glazing bars, profile style and opening method and we will design and manufacture for you with endless possibilities.

Our established double glazed Conservation™ casement range offers excellent performance ratings that exceed the requirements of current Part L Building Regulations. Our A+ rated specification, with its carbon neutral status in accordance with the BRE Green Guide to Specification, will help architects and designers achieve essential materials credits for their creations.

These elegant windows are also Secured by Design accredited for your total peace of mind.

CONSERVATION™ FRENCH, BALCONY & BI-FOLDING DOORS

Tradition meets innovation with the Conservation™ range of double glazed French Doors, Balcony Doors and Bi-Folding Doors. All combine elegant traditional sightlines with modern performance.

French Doors are made in 57mm thick sections to give a traditional feel with excellent operation and stability.

Balcony Doors feature particularly narrow vertical stiles to maximise natural light.

Our made-to-order Bi-Folding Doors can accommodate up to seven leaves, spanning openings of up to 5.9m.

Featuring high-performance weather stripping, complete with multi-point locking systems and high security cylinder, our Secured by Design accredited French doors offer high thermal performance with U-values that surpass the requirements of current Part L Building Regulations.

CHELSEA, LONDON
 New Conservation™ balcony doors
 have been specified for this complex
 project in one of London's most
 desirable and prestigious addresses.

Our core specification Bi-Folding Doors feature an ovolo sash profile, with or without glazing bars, and the option of lamb's tongue and fine lamb's tongue profiles to coordinate with your windows and doors. They are also available with a square profile to achieve a more contemporary style.

Factory finished and double glazed, 24mm Argon filled panels with low-emissivity glass coating as standard specification can be exchanged for laminated or obscure glass, while stylish ironmongery is available in a choice of elegant designs and finishes.

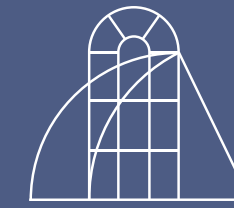

MAIN IMAGE
OXSHOTT, SURREY

This inspirational new-build property has been designed in perfect balance with traditional Georgian architecture externally and features Conservation™ sash, casement and feature windows along with several large sets of Bi-folding doors.

LISTED TERRACE, BRISTOL
Slim double glazed panes, with true bars and putty face finish, feature in these Classic™ Range sash windows which have been specified in the aesthetic and thermal upgrade of a substantial row of listed terraced properties that overlook one of Bristol's grandest and most elegant squares.

CLASSIC™

RANGE

Our NEW Classic™ Range of sash windows and doors are designed specifically to satisfy the requirements of more stringent planning areas.

Combining traditional appearance with the features of modern manufacturing techniques using slim, elegant double glazed panes, the Classic™ Range is the perfect choice for period property upgrade and replacement.

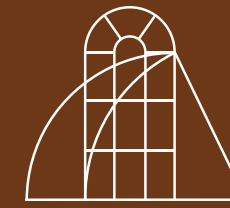

These made-to-order slim double glazed products are available with a choice of profiles and feature individual 12-14mm slim profile units with true bars and a traditional external putty faced finish.

In addition to standard annealed float glass, the opportunity to achieve the natural appearance of hand-blown glass with reduced reflection is possible with the option to choose either Victorian sheet or Crown glass.

SAATCHI GALLERY
CHELSEA
Single glazed, Conservation™ historic box sash windows were made-to-order in the dramatic conversion of the main building of the Duke of York's HQ, Chelsea, now the home of the Saatchi Gallery.

HERITAGE™

RANGE

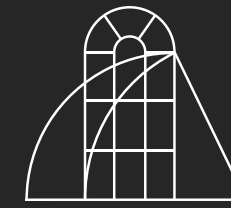

Our fully coordinated Heritage™ range of authentic period windows and doors are designed to replicate and replace original single glazed windows, like-for-like to the very finest detail, and are particularly suited for listed buildings and stringent planning requirements.

Manufactured as single glazed frames with hand-faced external putty and true bars, just as the originals would have been, Heritage™ windows and doors feature 4mm float glass or a choice of heritage-style glass to give a more authentic, uneven finish. Each window is bespoke in size and pattern, with a profile preference of Georgian, Gothic, Victorian or Queen Anne ovolo, to precisely replicate the originals.

The natural choice for listed properties* where there is no requirement to meet current Building Regulations.

*Subject to planning approval.

FACTORY TOUR

BUILT TO PERFECTION

Mumford & Wood's state-of-the-art manufacturing facility in Tiptree, Essex, extends to over 3,000m² and has recently undergone a £1.5m investment in new plant and equipment.

For those who are interested in seeing how the Mumford & Wood facility works, the Tiptree Factory Tour provides a fascinating insight. This one-hour long tour will take visitors through the processes of timber selection and preparation, moulding of profiles, frame and sash assembly to painting, glazing, hand finishing and wrapping.

Our Factory Tour is a RIBA-assessed CPD.

To find out more and arrange a visit for yourself and your colleagues, please call us on 01621 818155

THE PROFESSIONAL'S CHOICE

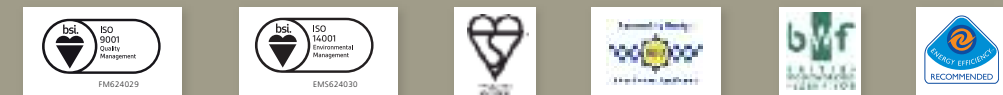

For over 60 years Mumford & Wood has worked in partnership with architects, specifiers and developers on a wide range of prestigious residential and commercial projects.

The comprehensive Technical section of the Mumford & Wood website at mumfordwood.com/technical provides an essential library of specification resources to support your work including NBSPlus, NBS BIM, NBS Product Selector, Constructionline, our extensive CAD download library, Building Regulations and performance data, and our RIBA-assessed CPD.

Our highly experienced Sales team can help in the design process, provide advice on the latest regulations and on the overall appearance of your project.
