SLATE ACCESSORIES

UNIVERSAL RIDGE ROLL

Simple and rapidly installed dry fix system providing 5mm continuous ridge ventilation. Compatible with fibre cement slates and ridges.

Ridge roll

MA33010

CONTINUOUS DRY VERGE

Easy-to-install continuous dry fixed verge system, providing neat weatherproof and durable finish for slates.

Verge trim (3m)

MA42206

(pack of 8)

GRP SLATE DRY VALLEY SYSTEM

Developed to allow the designer freedom to specify a completely mortar-free roof, this system utilises the latest GRP technology. The advanced and unique parabolic gutter section improves discharge rates without added gutter depth.

Valley trough (3m)

MA30578

IN-LINE SLATE VENTILATOR

Ideal for roofs where the normal ventilation airpath is blocked by valleys, abutments, hips, dormer windows and firebreaks or party walls or where it is not possible to incorporate standard eaves or ridge ventilation.

In-line slate ventilator EU_UNIVSLATEVENT

In-line slate vent adaptor

EU_INLINESLATEADAP

Flexible pipe

MA39091

DRY FIX SOAKERS

The Marley range of individual dry soakers is an easy to install, lightweight and highly affordable way to reduce both the material and labour costs associated with lead at side abutments.

Dry soaker (for both left and right hand)
