

## **Technical Data**

### **Internal blinds**

#### **Composition and manufacture**

Mermet<sup>®</sup> screen fabrics are composed of inherently strong, plastic-coated glass-fibre threads, which are dimensionally stable, resistant to fire and thin in profile. Non-standard colours and special weaves can be manufactured to order.

#### **Performance**

Mermet<sup>®</sup> fabrics are fire rated to BS 476-6:1989 Class 0, and BS 476-7:1997. They remain stable within a temperature range of -35 to 50°C.

#### **Sitework**

Mermet provides full technical support. Services include material testing and certification, provision of technical data, shading performance calculations, and advice on material selection, legislation and standards. Standard materials are available by the roll.
