FRIENDLY**

Magna Academy

Location: Poole, Dorset

Product: Bespoke Tiered Winterbourne Freestanding Shelter

TESTIMONIAL:

"A great canopy install provided for our Trust. Excellent service from start to finish. Quality workmanship and professional installation team. Look forward to using their services again in the future."

Tim Mead, Regional Facilities Manager

King John School

Location: Benfleet, Essex

Product: Kimmeridge Double-Sided Cycle Compound

TESTIMONIAL:

"King John are very happy with the overall service and products. The pupils love the shelters."

Head Teacher

Forest Row CE Primary School

Location: East Sussex

Product: Bespoke Winterbourne Freestanding Shelter

TESTIMONIAL:

"I feel compelled to write and let you know how amazing the team that came to install our canopies were. From the moment they arrived they were professionalism personified. They worked as a well-oiled machine, courteous, skilled, and efficient... I would highly recommend them to anyone." **Premises Manager**

Salesian School

Location: Surrey

Product: Winterbourne Wall Attached Shelter

TESTIMONIAL:

"The shelter looks fantastic, and the service was good from the start with site visit, planning and imagery of the proposed works".

Company Spokesperson

Childwall Sports & Science Academy

Location: Liverpool

Product: Winterbourne Wall Attached Shelter

OVERVIEW:

Childwall Sports & Science Academy, a returning happy customer of NBB Outdoors, sought to further enhance their campus infrastructure by installing a bespoke walkway between building entrances, to protect students and staff from adverse weather conditions such as rain, wind, and snow.

Poole High School

Location: Poole, Dorset

Product: Bespoke Winterbourne Freestanding Shelter

TESTIMONIAL:

"From the initial site visit to the finished installation, I have been very impressed with the overall service provided by NBB. The shelter has proved very popular and is used every day by all of the students".

Ian Byrne, Site Manager

The Khalsa Academy

Location: Wolverhampton, West Midlands

Product: Winterbourne Freestanding Shelter

TESTIMONIAL:

"Mark and his team on site have set the standard of professionalism on site and have been extremely helpful with the premises team and have been happy to spend the time to explain everything to us and have gotten the work done in excellent time. Dealing with the teams has felt like nothing we ask of them is too much so I would like to pass on the thanks of the principal and premises team for all their hard work".

Joe Millington, Estates, Compliance and Health and Safety Officer

Burton CE Primary School

Location: Christchurch, Dorset

Product: 2 x Bespoke Winterbourne Freestanding Shelters

TESTIMONIAL:

"We would highly recommend NBB Outdoors, they were professional, accommodating and completed the job on time and to a high standard."

Emma Bilson, Office Manager

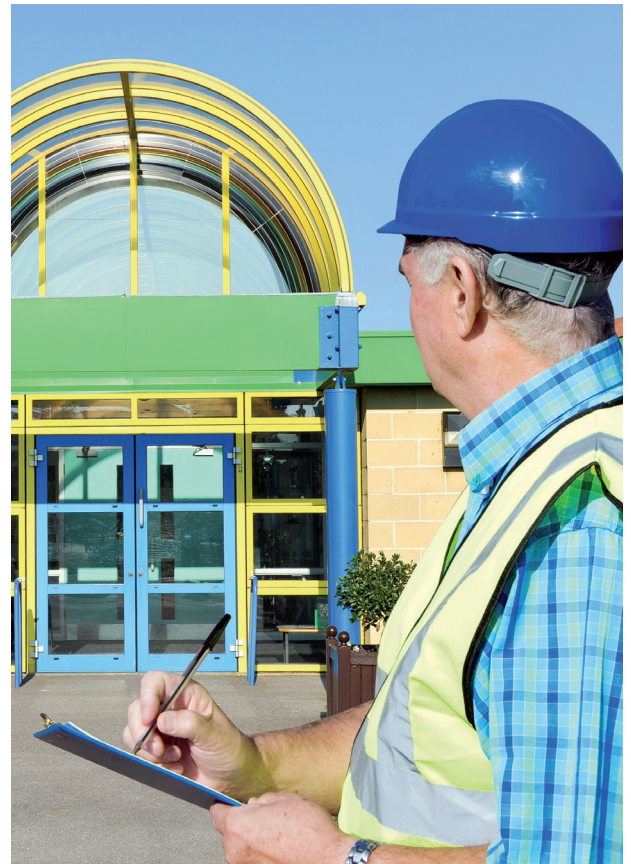

Need Planning Advice?

Before you order a shelter, walkway or canopy, you will need to find out if planning and/or building regulations approval is required. The best way to find out is to contact your local council. They can advise on whether you need permission and the type of application you'll need to make.

Please note that it can take some local councils up to 3 months to grant a decision.

If planning and/or building regulations approval/permission is not required, contact us to book in your installation – **Call Freephone 0800 1777 052**

If planning and/or building regulations are required, you will need to apply for planning permissions. This can be undertaken by your business or using an external consultant. **NBB Outdoors** are happy to assist you throughout the process by providing relevant drawings, technical information and any further advice you may need.

Looking For Funding?

Your local council might also be able to help you fund your new project - have a look at our top tips to consider when applying for funding. Take a look at NBB Outdoors' 'Top Tips' on applying:

- ✓ **Plan Plan Plan** - funding applications can take several months, make sure you plan as far ahead as possible
- ✓ **Research the organisation** you are applying to for funding, find out about their policies, interests, who they have funded before and what grants are available
- ✓ Within your application **describe your organisation or school** and who will **benefit from the grant** in as much detail as possible
- ✓ **Identify what the problem is** - it might be that there is not enough shade or outdoor cover or there is a need for outdoor seating?
- ✓ **Explain how the funding will benefit the wider community** - benefits and timescales - products you'll need to purchase
- ✓ **Detail your budget** - are you also fundraising, if so how?
- ✓ **Show how your project has the support of the local community**
- ✓ **Take time when completing the application** - check it for accuracy, include support material such as plans, photos, letter of support etc
- ✓ **Focus on the benefits** that this project would bring not only to your organisation, but also the wider community
- ✓ **Spread the word** The more people who know about the project, the better your chances of receiving funding - you never know, you might even receive additional offers of funding!

Funding & Grants Guide for Schools

Our latest Funding & Grants Guide provides details of many available grants and funds, summarising the key details in an easy to review way. These additional pots of money are available in the form of grants from trusts and foundations, as well as specific government departments.

National Lottery Community Fund England / Northern Ireland / Scotland / Wales

Funding Range: £300 to £10,000

Eligible Organisations: A not-for-profit group, Parish or town council, Schools or health companies, Charities, Co-operatives, Friendly societies, Industrial and provident societies

Suitable Projects: Better training and development access with greater opportunities for people to improve their life skills, More integrated communities, Improving the environment, Improve activity levels and health for people and communities

Application Process: Read the online guidance notes available from the website link below before you apply: complete and email the completed form to the email address provided, and a decision will be made in approximately 18 weeks

Important Dates: There is no deadline and therefore you can apply at any time

Web Address: tnlcommunityfund.org.uk/funding/under10k

Tesco Stronger Starts

Funding Range: Every three months, three local good causes are selected to be in the blue token customer vote in Tesco stores throughout the UK: first place receives up to £1,500, second place up to £1,000 and third place up to £500

Eligible Organisations: Voluntary or community organisations, Schools, Health bodies, NHS trusts, Parish/Town Councils and local authorities, Social housing providers

Suitable Projects: The following projects may be eligible to receive funding, although the list is not exhaustive of all opportunities: Improvement of local nature routes, Development of community allotments, gardens and growing projects, Developing sustainability-based learning programmes, Developing art trails, Park events

Application Process: An application form is available, which should be downloaded, completed and returned to the given address

Important Dates: Check the website for further details. Generally, applications can be made at any time owing to the monthly rolling award system

Web Address: tescostrongerstarts.org.uk

Persimmon Community Champions

Funding Range: Up to £6,000 can be donated to each project.

Eligible Organisations: Community groups and charities in the UK are able to apply, so ensure your school is a registered charity before you submit your form.

Suitable Projects: The scheme aims to find 'local good causes' and so a range of projects will be considered. Previous projects which were awarded funding include a primary school who received support to improve their outdoor spaces and a youth charity who were supported in funding new woodwork stations.

Application Process: There is a simple online form that needs to be filled in with details about the project and the school.

Important Dates: Funding is awarded on a quarterly basis so the application form can be submitted at any time during the year.

Web Address: persimmonhomes.com/community-champions

Manufacturing Process

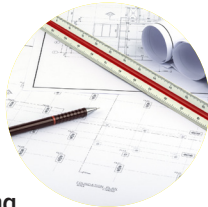

NBB
Outdoors

At NBB Outdoors, we center our manufacturing approach on precision and innovation, consistently delivering quality from the earliest stages of prototyping through to final fabrication. Since achieving ISO 9001:2008 accreditation in 1990, we've upheld the highest standards in every project we undertake. Leveraging over two decades of design expertise, we specialize in creating custom solutions that cater to diverse budgets, needs, and environments, ensuring every client finds the perfect fit.

As a proudly certified Made in Britain company, our production process takes place entirely in our Poole, Dorset facility. Here, we bring your bespoke projects to life, managing each stage of development in-house to maintain strict quality control and deliver outstanding results. Discover the craftsmanship and dedication behind our tailored projects below.

1. Design

We begin by creating detailed GA drawings. Whether based on site surveys or unique project requirements, our technical drawings are produced, ensuring alignment with customer expectations. The GA drawings are issued to the customer for consultation & sign off, before progressing to production drawings.

2. Precision Cutting

Our production process utilises in-house machinery to ensure precise and efficient steel cutting. For straightforward cuts, we employ a high-performance band saw that delivers clean, accurate edges. When it comes to intricate designs or complex geometries, our state-of-the-art CNC Tube and Pipe Plasma Cutter steps in, allowing us to execute detailed patterns and shapes with pinpoint accuracy.

3. Steel Bending

Our cold rolling machine, shapes shelters like the Kimmeridge and Lutton, while the Nargesa CC90 tube and pipe bender creates curves for bike racks and scooter racks.

4. Surface Preparation

Before painting, surface preparation is key. We employ shot blasting with techniques remove rust and other imperfections, mill scale, and oil/grease. Additionally, our Phoswashing technique ensures pristine surfaces, allowing powder to adhere for optimal bonding.

Precision Coating

Our coating and painting processes are tailored to each product. For the TripleX range, a multi-step process including zinc-rich primer and topcoat powder ensures durability and aesthetic appeal. Standard techniques involve zinc-rich priming followed by topcoat application for lasting protection.

Aftercare

Our commitment extends beyond production. Once your bespoke shelter has been manufactured our installation team are on hand to help ensure a seamless integration. With our dedicated customer care team available throughout the entire process and to offer any after sales and installation care required.

From technical support to on-site service, to our dedicated in-house customer care representatives. Your satisfaction remains our up most priority.

Manufacturing Process - Understanding Triplex

There are multiple variables that influence the speed of corrosion, such as the material of a product and the environment in which it is located. Knowing what the right anti-corrosion protection that meets your project needs is, can be complex.

AkzoNobel's 'Interpon Redox Triplex' is the answer to any and all variables, offering a multi-layer powder system that provides superior anti-corrosion protection and longevity compared to other coating solutions.

Treated to ISO 12944 standards, our Triplex-treated products come with an industry-leading 25-year guarantee, no matter the setting, so you can cut maintenance costs while achieving

Triplex' Key Benefits:

- **Maximum protection longevity**, guaranteed for an industry-leading 25 years!
- **Ultra-strong corrosion protection** performance up to the harshest category C5 environments
- Backed by AkzoNobel, with over 40 years proven performance and experience in more than 70 countries
- **A sustainable choice**; VOC-free and containing no solvents or toxic components
- **A total corrosivity solution**, combining the very best in barrier and cathodic protection
- **Ideal for high-humidity** and high salinity environments
- **Smooth surface finish** akin to furniture, with no zinc spikes or roughness
- **Applied to the very highest quality finish** – guaranteed

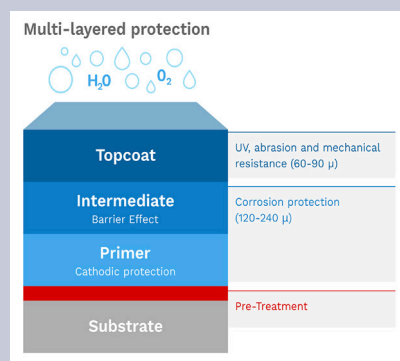

What Exactly Is Triplex?

Interpon Redox Triplex is your total corrosivity solution, combining the very best in cathodic protection and barrier effect anti-corrosion techniques, enabling treated products to remain fully operational even in the harshest high-humidity/salinity

Cathodic protection is a method where the substrate metal is connected to a more reactive, zinc-rich 'sacrificial metal', that will corrode instead of the protected substrate.

Barrier effect protection isolates the substrate from its environment with a water and airtight primer. Oxygen and other corrosive agents are thus prevented from making direct contact with the steel, and consequently no corrosion can form.

The Triplex system layers these two technologies – alongside a UV-, abrasion- and mechanical-resistant epoxy polyester topcoat (in a colour of your choice) applied to BS

Why Triplex?

Steel corrosion is the irreversible deterioration and destruction of the material, affected by factors such as ambient air temperature, the presence of chemical fumes and vapours, and humidity. The corrosive reaction severely compromises structural integrity and curtails the service life of the steel. And that's why NBB Outdoors are incredibly proud to be a Service First provider of Triplex multi-layer powder coating, the latest innovation in industry-leading corrosivity protection that's backed by AkzoNobel (the people behind Dulux), who to put it mildly know a thing or two about performance coating. All Triplex coated products are guaranteed for 25 years in even the harshest C5 classified conditions - the best guarantee you'll find on the market - giving you maximum performance from your product for longer than any other treatment.

At NBB Outdoors we can design ANY shelter to meet your exact specifications.

From walkways to designated waiting or smoking shelters, and cycle storage to street furniture, we take care of the whole process with you, from a **FREE no-obligation quotation** all the way through to **manufacture and installation**.

All our custom shelters are **manufactured and treated to British (BS EN) and international (ISO) standards**, guaranteeing your bespoke shelter for **between 5 and a market-leading 25 years!** With hundreds of projects across the UK, our team of **specialists have over 30 years' experience** to create the **perfect shelter for your premises**.

Call **0800 1777 052** or email sales@nbboutdoors.co.uk today and get your **FREE bespoke quotation**.

We now offer a cleaning and maintenance service for all NBB customers. The options we offer you can be completely designed to suit your individual requirements. See below for just a few of the services we can offer.

- Replacement of broken or graffiti damaged panels and fittings if required*
- Cleaning of your shelter to keep it looking brand new
- Re-painting
- Supply of paint RAL colour for future touching up of scratches/chips
- Relocation of existing shelters
- Removal service (Whether we installed your shelter or not)
- Shelter renovation
- Groundwork
- Extension to existing shelters
- Shelter alterations
- Yearly cleaning service can be arranged

** Broken or damaged panels can be returned to us for recycling*

Benefits

- Shelters are kept in best condition for longer
- Existing stock can be refurbished to save money
- Clean and well maintained shelters are more attractive to employees and visitors
- Keep your outdoor premises looking clean and tidy
- Reliable service provides you with peace of mind that the job will be completed professionally and on time

From cleaning to maintenance or general groundworks, NBB are happy to estimate for any service you require and we will follow the job through, right from a site visit to establish your requirements to completion of your maintenance. We can even give you an annual telephone call to check everything is OK with your shelter and ask if any maintenance is required.

Contact us on Freephone **0800 1777 052** or visit **nbboutdoors.co.uk** for more information or a FREE quotation.

By accepting a quotation or placing an order within NBB Outdoors you are agreeing to the below mentioned terms and conditions:

The Company: NBB Outdoors is a division of The No Butts Bin Company Limited, Registered in England and Wales – Company Number 02955153 whose registered office address is 5-7 Newbold Street, Leamington Spa, CV32 4HN

The Customer: The corporate entity, firm or individual ordering the goods from the Company. All orders are made on the following terms & conditions alone. Should a third party, contracted by the customer, impose additional requirements, hinder access or progress we reserve the right to pass any resulting costs back to the customer.

The No Butts Bin Company Ltd sales representatives have no authority to make any representation or promise on the company's behalf or to vary these terms & conditions.

Prices: Unless stated to be fixed for a stated period, The No Butts Bin Company Ltd reserves the right to change prices at anytime without prior notice. All prices are excluding VAT. For the purpose of quotations, prices are based on a number of assumptions and should these assumptions not be correct, we reserve the right to amend the quoted pricing accordingly.

Credit: The Company will agree to issue the Customer with credit subject to status. The Company will conduct one or more credit searches on the Customer during the quotation and order process in order to establish an acceptable level of Credit. Results of these searches will be retained by the Company, but will not be shared with any outside party.

Deposit: Subject to the results of the credit check(s), the value of the order, and the bespoke nature of any shelter/walkway being provided the Company may request a deposit payment to be made at the point of placing the order.

Payment: The customer will agree to pay the full invoice amount less any deposit already paid within 30 days from the date of invoice unless otherwise agreed in writing.

Risk & Title: The risk of the Goods passes to the Customer at the point of delivery, or upon completion of Installation. The Customer shall hold the goods in a fiduciary capacity until such time as full payment has been received. Title and full ownership of the goods will only pass to the Customer on receipt by the Company of all monies due under the order.

Installation: If you request us to install your shelter(s), our installation team will require unhindered access to the site area once arrived on site, all No Butts Bin Company staff are aware that an induction may take place prior to work commencing however should this delay the start of the installation we reserve the right to charge for this time accordingly. As mentioned at your site survey we take all fixing points at face value, should we discover once excavation has started that areas are unsuitable or extra work is required, we reserve the right to charge for any additional work. In the unlikely event that further work is required we will inform you prior to work commencing.

The company considers unhindered access would allow the unloading of any delivery vehicles, parking of fitters vans and positioning of skips could take place between the hours of 08:00 and 17:00 and would be within 10 meters of the installation footprint. To ensure the integrity of the customer's site, access/egress routes will be agreed in advance as NBB cannot take responsibility for pre-existing ground conditions including roadways and footways.

Returns: The Company will supply the customer with products on the condition that the customer will test them in actual use and will have determined whether the products are suitable for particular use to which they are to be applied. In the event of the product not meeting the customer's requirements, it must be returned to the Company in a re-saleable condition within 30 days of delivery. Depending on the circumstances, a delivery charge and/or re-stocking fee may apply. Please note, if you wish to return the shelter or part thereof you purchased after the 30 day period then a restocking fee / delivery charge will be applicable. If the shelter was installed by our installation team, you may still be liable for the cost of installation and any associated groundworks.

Damaged & Missing Products: The Customer must make any claims for damaged or missing product within 7 working days of receipt of delivery. The Company reserves the right to refuse any claims made after 7 working days. This does not affect the Customer's statutory rights.

In such circumstances, we will either make good any shortage or non-delivery; replace or repair any goods that are damaged or defective upon delivery; or refund to you the amount paid by you for the goods in question. Any credits and refunds will be made only after the Company's receipt and inspection of the goods. Refunds will only be provided using the same payment card used to place the order. The Company reserves the right to refuse the Customer credits and refunds in the event of goods being returned in a used and/or unsaleable condition.

Limit of Liability: We shall have no liability to pay any money to you by way of compensation other than any refund we make under these conditions. Our liability to you shall not in any event include losses related to any business of yours, such as loss of profits or business interruption; neither will we be responsible to you for any other loss which is not a foreseeable consequence of us being in breach of these Terms and Conditions or our legal duties.

Online Product Images and Descriptions: Images in the company's brochure, literature or on its website may differ slightly from the products supplied. In such an event, the product supplied by the Company will still be fit for the purpose of its intended use.

Overseas Orders: The No Butts Bin Company reserves the right to treat orders from Customers outside of the UK on an individual basis.

For Information regarding our privacy policy: Please visit nbboutdoors.co.uk/page/privacy. Alternatively, if not accessible please contact our sales team on 0800 1777 052 who will post a hardcopy to your address.

How to Contact NBB Ltd: If you have any questions about this Privacy Policy or our treatment of your personal data, please write to us by email at sales@nbboutdoors.co.uk or by post to NBB Ltd, address noted above

Error & Omissions Excepted.
