nordlux®

23/24 Collection

As we step into the **2023/24** lighting season, we are proud to present a range with even better designs, more exciting functionalities and higher quality at remarkably affordable prices.

Each of our lighting categories have their own special highlights, but common to them all is our continuous wish to create products you want to bring home.

The styles in our large, **decorative** assortment range from classic New Nordic designs that are colourful, modern and streamlined to more raw, industrial pieces. We explore nature's materials such as marble and paper, and expand into more Art Deco and vintage styles.

As something completely new, we explore the world of lighting for the children's room. Wall lights, pendants and table lamps in cute, organic shapes that are perfect for making kids feel safe during the night.

This year, we provide **functional** solutions for all needs and areas of the home, including new variants of our bestsellers in black. Our downlight range is more comprehensive than ever before and features models with our patented, easy push-in installation method.

Our **Smart** range is supported by our new and highly improved app, making it easier than ever to take full control of your lights, both inside and outside. We also invite you to explore our new line of products with colour ambience to create the perfect light for a colourful life.

For 2023/24, the DNA of our **outdoor** range is defined by durable materials and designs that are made to last for many years. We are continuously working towards a greener tomorrow through natural energy sources, anti-light pollution and long-term durability.

The new outdoor range also expands and improves our Take Me Anywhere and Designed For Seaside concepts. Our Seaside products are made to last for many years due to both their design and materials, thus inviting the consumer to break with throwaway culture.

Last but not least, we present a full range of A-class **bulbs** that are our most energy efficient bulbs ever (Energy Class A). They have an extra-long lifetime of 30,000 hours – twice as long as a standard bulb, but in the exact same style and size.

Arild series

Arild is a series of lights in a modern design with an industrial touch. The white, round, matte opal glass shade is elegantly complimented by brownish brass details. You can easily adjust the lamp head for a directional light.

The glass in this lamp is mouth-blown and has been individually hand crafted. Due to this unique process, air bubbles may appear in the glass and the thickness of the glass can also vary. This gives the glass its character and vivid appearance.

Clasi series

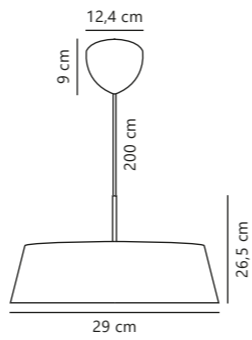

Watch the full
ambient video

Clasi is a modern take on a classic lighting design. The black metal shade is an interesting contrast to the lightweight brass. The wide shade provides you with a wide field of light, and diffusers at both the top and bottom ensure a pleasant, glare-free light.

Dial series

Dial is a modern and contemporary family inspired by distinctive lighting designs from the 50s.

The style is Nordic and streamlined, with an open and geometric shape that allows for lots of light to shine through. The open shade creates a decorative uplight effect when the light is turned on.

Ellen

With references to minimalist and timeless Scandinavian design, Ellen fits beautifully into most interior designs. The rounded shade creates an elegant and contemporary contrast to the lightweight frame and contributes visual volume and a wide field of light. The Ellen wall lamp is perfect for creating a soft and pleasant light next to your bed or sofa.

Freya series

Freya is a family of organically shaped lights in a Nordic contemporary design. The almost oversized top shade embraces the lower and completes the elegant silhouette - while at the same time covering the light source for a comfortable light.

This pendant is perfect to light up your dining table alone or in a set of two, or even above your kitchen counter.

Marsi wall

Marsi is a small wall light that consists of two perfectly round shades. The light is reflected onto the back shade, creating a cosy and diffused light. Dim the light in three steps with the built-in Moodmaker™ function by flipping the switch on the cable.

Glass series

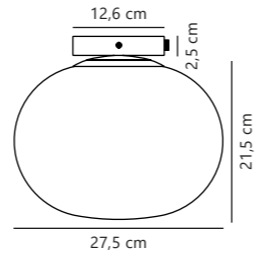

Glass lamps are timeless classics that effortlessly blend style and function while creating an inviting atmosphere. Swirled glass brings beautiful light patterns to your walls, while opal white glass offers a soft and pleasant ambience. You can also add a decorative bulb to a clear glass lamp to create your very own design expression.

Chisell series

Chisell draws inspiration from the glamorous Art Deco style and features modern brass and swirled glass. The swirled glass dome casts a beautiful light effect on the wall. Chisell can be used individually or in a cluster of several lamps together to create an interesting lighting effect.

The glass in this lamp is mouth-blown and has been individually hand crafted. Due to this unique process, air bubbles may appear in the glass and the thickness of the glass can also vary. This gives the glass its character and vivid appearance.

Milford series

Milford is a decorative series, where the opal white mouth blown glass creates a soft and almost "pleated" look. The combination of the organic forms and the grooved surface creates elegance and illuminates the room with a soft and warm light.

Ivona series

Ivona is a reinterpretation of the classic chandelier - challenging the traditional perception with a more organic and up-to-date look. Ivona emits a beautiful light from several beautiful glass balls for a modern and extravagant style.

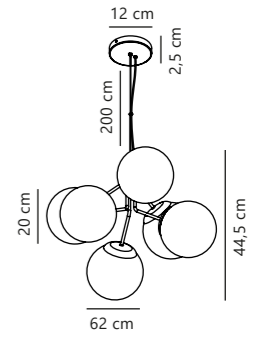

The glass in this lamp is mouth-blown and has been individually hand crafted. Due to this unique process, air bubbles may appear in the glass and the thickness of the glass can also vary. This gives the glass its character and vivid appearance.

Torina pendant

The Torina glass pendant has an airy vintage design expression with a feminine touch. You can add just the bulb you like - and create an interesting look by hanging three or more pendants in a line or a cluster.

The glass in this lamp is mouth-blown and has been individually hand crafted. Due to this unique process, air bubbles may appear in the glass and the thickness of the glass can also vary. This gives the glass its character and vivid appearance.

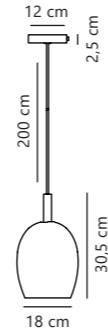

Uma series

The Uma series adds a modern and decorative touch to the classic pendant. The mouth blown glass shade has an elegant, oval shape that frames the light beautifully. Use a decorative bulb to create your own design expression. The glass in this lamp is mouth-blown and has been individually hand crafted. Due to this unique process, air bubbles may appear in the glass and the thickness of the glass can also vary.

Soft series

We proudly introduce lights in our "soft" category, where natural materials and tactility are the focal point. From soft fabrics to warm wood and organic marble, these lamps embrace the beauty of nature. Create a cosy ambiance with soft textures and earthy, natural tones.

Dicte series

The round shade of the Dicte series is made from soft, handtied fabric that adds a cosy and homey feel to every room. The pleated cotton shade ensures a soft and diffused light that is perfect for lighting up your dining table.

Asti series

Asti is an open pendant, where the wooden structure invites nature inside and creates a beautiful interplay of light and shadow. The airy design lets the light spread downwards and into the room in the most beautiful way.

Cardine series

Watch the full
ambiance video

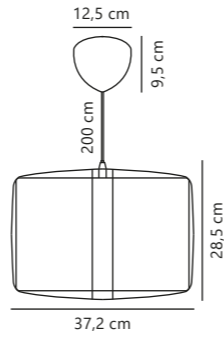

The Cardine series has a modern Japandi style that mixes elements from the Japanese interior philosophy with Nordic minimalism. The lightly crinkled paper shade is suspended by thin metal wires and ensures a pleasant, diffused light.

Skyku Cloud

Skyku Cloud is shaped like an adorable soft cloud and is perfect for the child's room or nursery. The glass dome provides a soft, diffused light that is perfect for bedtime reading and for making your little ones feel safe during the night.

The glass in this lamp is mouth-blown and has been individually hand crafted. Due to this unique process, air bubbles may appear in the glass and the thickness of the glass can also vary.

Moodmaker™

Nordlux Moodmaker™ makes it easy to adjust the light to suit the situation and needs. Moodmaker™ is a built-in dimmer function that works with your traditional wall switch or on/off lamp switch depending on the individual model.

This means that you do not need a traditional dimmer that can be both expensive and difficult to install. Nordlux Moodmaker™ products offer an excellent alternative and do not require additional devices or demanding setup processes and technical specifications.

Ceiling lights

Ceiling lights are simple and beautiful lights that are ideal for small rooms and rooms with low ceilings. Ceiling lights offer broad light dispersion, thus providing good and functional room lighting. Our range includes lights that can be used both as ceiling lights and wall lights, thus offering versatility.

Arlington series

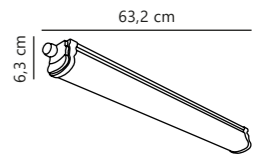

This universally applicable batten with integrated LED and a long product lifetime of 25,000 hours is a great and energy efficient replacement for classical T8 fluorescent fixtures.

Oakland series

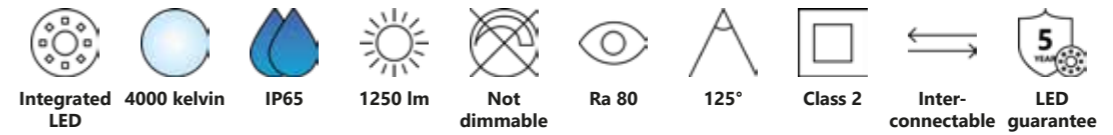

Oakland is a universally applicable LED batten with a high IP rating (IP65) and integrated LED. Carried out in a slim design with high lumen output and quick wiring terminal block. This product has an extra long lifetime of 25,000 hours and the option for loop-in/loop-out wiring.

LED Strips

With Nordlux's LED strip concept, you can create your own lighting style anywhere you want – even in narrow areas with very little space.

With the ability to cut to size and apply using the adhesive tape on the back, you can now add lights in places where it was not previously possible.

Use the LED strips to create cosy, subdued white or coloured lighting that can be easily concealed beneath kitchen cabinets, along the staircase, behind a TV screen or anywhere else you want.

Bathroom lights

Bathroom lighting is a category with very specific safety regulations. Wet areas with moisture, steam and flowing water require very strict lighting regulations.

Our "Bathe in Light" concept combines all safety regulations for the different zones in the bathroom with the newest LED technology such as our Moodmaker™ function. Moodmaker™ allows you to shift between functional and relaxing light, for example by switching to a dim night light when visiting the bathroom during the night.

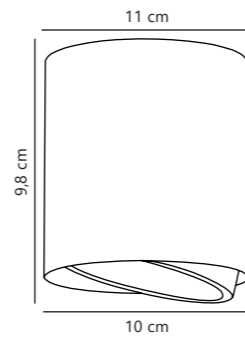

As part of our "Bathe in Light concept", we also have developed products with high colour rendering index (RA/CRI90), providing a natural light that is very close to sunlight. With this light, skin tones and colours are accurately reproduced, which is important when applying makeup and getting ready in the bathroom.

Smart LED Strip

With Nordlux's Smart LED strips, you can create your own lighting style anywhere you want – even in narrow places with very little space. Control the light via the Nordlux Smart app and create cosy coloured lighting. The strips are easily concealed beneath kitchen cabinets, along the staircase, behind a TV screen or anywhere you can imagine. Easy installation with the adhesive strip.

Oja Smart

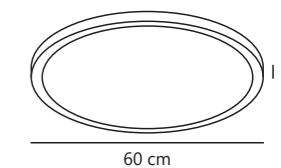

Oja Smart is a universal ultra-flat ceiling light with an elegant backlight effect. Create the perfect ambience for your home by dimming the light and setting the colour temperature from cool to warm white with the Nordlux Smart app or the Nordlux Smart remote.

Harlow Smart

Harlow is a rectangular ceiling light in an ultra thin design with a backlight effect. Adjust the light from cool to warm white, choose from millions of colours and reduce or increase the brightness with your smartphone or tablet. You can also add a Smart Remote Control to control your lights without using your smartphone. Suitable for humid areas such as the bathroom thanks to the high IP rating (IP54).

Djay Smart

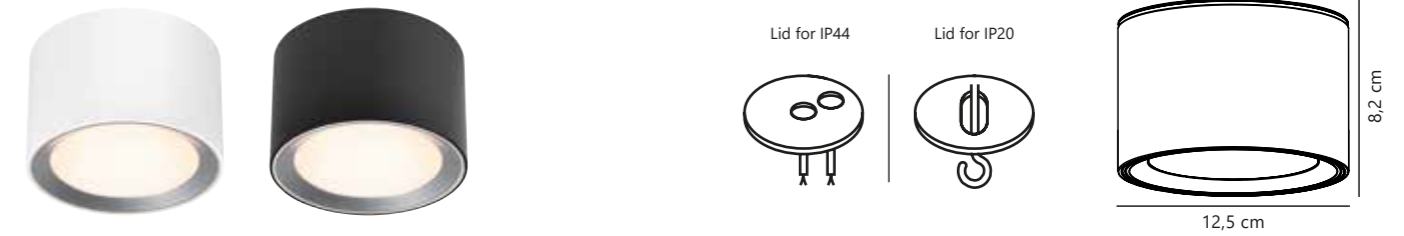

With Djay you can enjoy a nice shower accompanied by the perfect ambience and your favourite music. Djay combines elegant lighting with a functional Bluetooth speaker that can be controlled by your smartphone or tablet. The Nordlux Smart app lets you control the music, dim and adjust the light from cool to warm white and choose from millions of colours. The high IP rating (IP54) makes Djay suitable for humid areas such as the bathroom, but it is also perfect for the kitchen or children's room.

Landon Smart

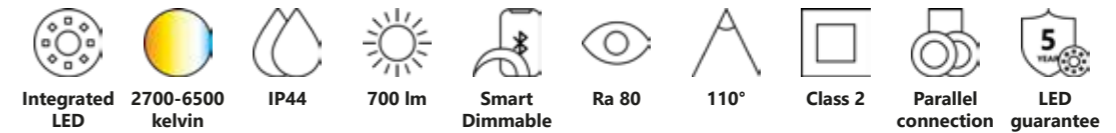

Landon is a series of surface mounted downlights where you can dim and turn the light on and off using the Nordlux Smart app. You can also adjust the light from cold to warm white according to your needs. The high IP protection (IP44) makes this downlight suitable for the bathroom.

Grip Smart

With a beautifully curved design, the Grip wall light by Danish designer Maria Berntsen adds a modern, yet timeless feel to your outdoor space. Grip lights up the dark with a stylish elegance that fits any exterior design. The built-in Nordlux Smart LED creates a soft, diffused light that you can dim, adjust and turn on and off through the Nordlux Smart system.

Smart Sensor

Smart Sensor is a wireless battery-operated lux and motion sensor with free mounting opportunities, as no cables to the sensor are required. The Smart Sensor can be connected to any of the Nordlux Smart Light bulbs and luminaires.

The sensor operates via Bluetooth and is connected to the Nordlux Smart Light app, where you easily regulate the motion and darkness sensitivity sensor. Mount the sensor directly on the wall or with the enclosed bracket to determine the direction of the sensor. The Smart Sensor being IP safe, makes it ideal for both outdoor and bathroom use and has a battery life of 400 days.

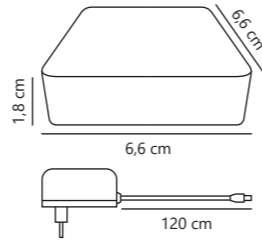

- Easy installation without the use of cables
- Twilight and motion sensor in one unit
- IP safe for both outdoor and bathroom use
- Bracket included for tilted or corner positioning
- Battery lifetime +400 days
- Can control up to 50 lights via Bluetooth

Take Me Anywhere

When creating the perfect lighting setup on your terrace, just grab a cordless lamp by the handle and place it wherever you need it to make a statement or set the mood.

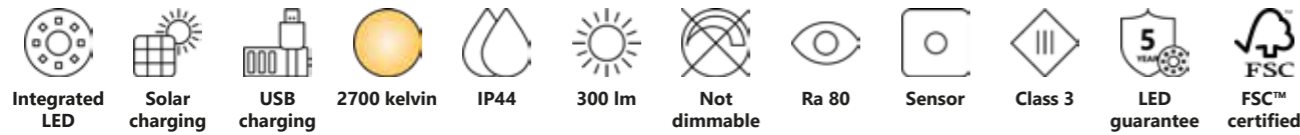

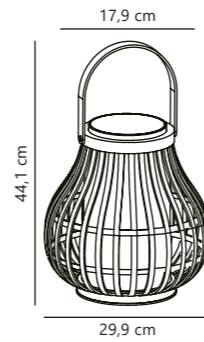

The possibilities for a cosy ambience are endless as our portable series are inviting you to take them anywhere – both inside and outside. And, with the different replaceable accessories for Kettle and Sponge, you can even change the type of lamp that is suited for your dream garden or terrace setup.

Bob series

Watch the full ambience video

Bob is a modern, solar powered and transportable lamp designed by Danish designers Says Who. Design and functionality comes perfectly together - just grab the cordless lamp by the handle and place it wherever you need it. Bob creates a cosy ambience in the garden or on the terrace by turning on automatically when darkness falls.

DESIGNERS TRUST

Bring series

Bring is a stylish and portable outdoor light by designers Timothy Jacob Jensen and Alasdair McPhail. Bring has a round, illuminated surface elegantly embraced by a black rubber band that also serves as a practical handle or hanger.

A gentle tap enables the Moodmaker™ function and dims the light in two steps. An additional tap turns the light off. The long battery life and water-resistant surface made from recycled materials make it ideal to bring with you wherever you go – to the beach, the park or the terrace to light up those warm summer nights with a pleasant and cosy ambience.

Jim series

Watch the full ambience video

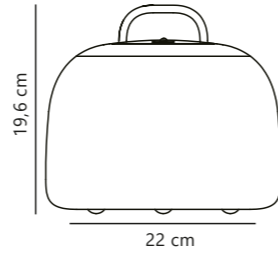

Jim is designed by Danish design duo Says Who. The series has a rounded, airy silhouette and a practical handle that makes it easy to place wherever you need it. The portable lamp is battery powered and has Moodmaker™ functionality that makes it possible to adjust the light in three different light settings.

Sponge On A Stick

Inspiration for Sponge's name and design language came from sponges in the forest. The organic design and soft shapes make Sponge an incredibly elegant series that is suitable for both inside and outside the home. The built-in rechargeable battery makes it easy to grab Sponge and take it with you wherever you go.

Solar series

Our Solar concept is a series of solar powered outdoor lighting that is charged by sunlight during the day. All our solar products have included batteries and can easily be installed with no cables needed.

The range of solar powered lighting includes wall lamps, transportable lamps, and lamps with included spikes, that easily can be installed wherever you want in your garden, driveway, or other outdoor areas.

Canto series

Whether Canto 2. is placed indoors or outdoors, the lamp offers a unique lighting experience. The minimalist design makes the lamp both decorative and sculptural. The light flows both up and down, and with the three included pattern inserts, it is possible to change the light image according to desire and personal style.

Designed by Danish designer Bønnelycke MDD.

Coupar series

The Coupar series by Danish design duo Says Who exhibits a modern take on the traditional lantern. With clean lines and yet a soft, rounded design expression, the series effortlessly combines classic characteristics with a modern, contemporary look. The ribbed glass ensures a pleasant, diffused ambience while casting an interesting play of light.

Hayley series

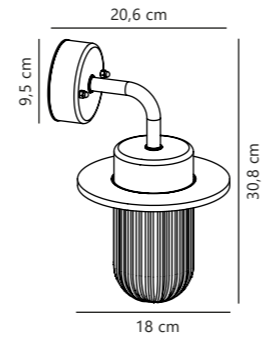

The Hayley wall light by Danish design duo Says Who combines clear Art Deco references with a modern twist. The base of the lamp is brown metal with an elegant rippled surface. The shiny glass dome ensures a pleasant, diffused light.

Januka series

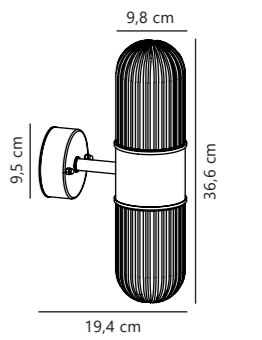

Januka is a series of outdoor lights designed by French designer Darrow with a ripped glass diffuser and a shade made from recycled plastic. The design is elegant and classic, and the speckled shade adds a contemporary twist with an almost terrazzo-like look.

Januka Wall designed by Darrow

Shade-on-shade series

Shade-on-shade outdoor lights have a classic and modern design that is perfect for your entrance, driveway, terrace or any other outdoor space. The layers of the shades ensure a functional, yet glare-free and diffused light.

Arki series

The Arki series by Danish designer Bønnelycke MDD is characterised by its beautiful dome-like shade and minimalist, clean lines inspired by the classic architect lamp. Arki beautifully balances simplicity with sophistication while emitting the perfect light for your entrance, driveway, terrace or other outdoor space.

Designed For Seaside

Nature is beautiful - but it can also be rough. Crashing waves, wind, sand and especially salt can be a challenge for your home and your outdoor lighting. For Nordlux, this beautiful but harsh nature and weather is part of everyday life. We therefore strive to produce lamps created from natural materials which are also resistant and durable, year after year, in relentless weather and nature.

Nordlux offers a 15-year guarantee on all outdoor lamps in galvanized steel, corten, copper and brass. This guarantee applies to extensive corrosion in the form of holes in the metal caused by rust.

Aleria series

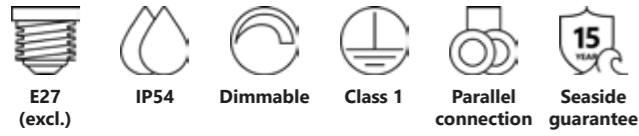

Aleria is a small lamp that does not take up any unnecessary space, but at the same time provides a good functional light. With its soft shapes and elegant design, this lamp becomes a beautiful decoration for your outdoor space. Aleria is made of galvanised steel and would be perfect by the driveway, front door or garage.

Fold series

In terms of shape, Fold by Bønnelycke MDD is brightly clear, where the selected details and latest LED technology are in focus. The magnetic shade makes the installation simple and the design distinct without visible screws. The light shines up and down, and the four included light patterns change the light based on desire and personal style and are also an element for light dimming.

Temple series

Temple is a portable, solar powered lamp by Danish design duo Says Who that balances elements from the classic lantern with a modern, streamlined design. Temple is the perfect light for your garden, terrace or balcony as it turns on automatically when darkness falls and provides a cosy, yet practical light. Made from durable galvanized steel that is well suited for harsh weather.

Our new A-class bulbs are our most energy-efficient and sustainable bulbs ever (Energy Class A).

They have an extra-long lifetime of 30.000 hours – twice as long as a standard bulb, but in the exact same look and size.

These bulbs consume almost 50% less energy than our standard filament LED bulbs.

FSC™ certified wood

We focus on protecting our resources and the environment. This is one of the reasons why we have been FSC certified since 2016. FSC certification is about using trade forest products such as wood and paper from responsible sources, and ensuring clear traceability for the wood – all the way from forest to the finished product in the shop.

Responsible sources refers to local populations, animals and plant life being taken into consideration, that logging is done in an environmentally appropriate way and that the deforested areas are replanted.

The desire and motivation for FSC certification of the products which include wood is a natural continuation and development of our approach to environment and sustainability – and we will continue to demand FSC certified wood for those of our design products that include wood.

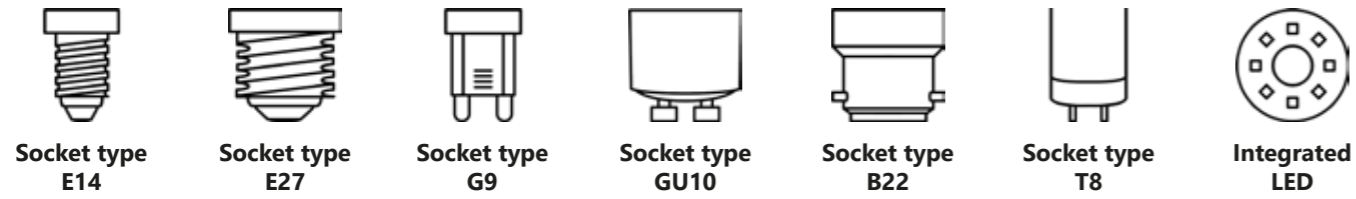

We see sustainability as a task involving everyone associated with Nordlux – from the owners, board and management to employees and suppliers.

***FSC® stands for Forest Stewardship Council® and is a recognised international non-profit labelling scheme for wood and paper.**

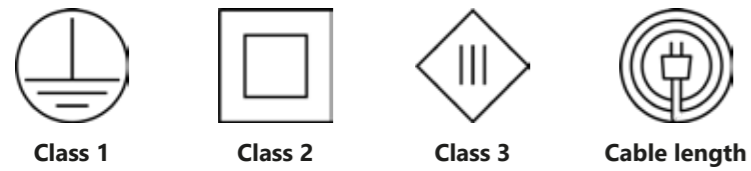

FSC certification ensures responsible forest management and improved living conditions for the local population in forests worldwide.
