

# CHANGING THE WORLD ONE LETTER FLAP AT A TIME...

#### **Dear Friends**

It has been a long time coming but finally we are launching our first product catalogue. We intended to make it as user friendly and informative as possible, hopefully you will find it full of useful information about our amazing ranges of communal and individual post boxes and parcel boxes.

This catalogue is a natural progression, another step in our company growth and development, from 2012 and the spare bedroom to our recent move to a 7000 square feet office, warehouse and assembling facility. We have been working hard all these years to get to where we are now, mostly to earn your trust and get the chance to show you that we provide the highest-level customer service and reliable, high-quality products. Our two-digit growth in a year of global pandemic and a Platinum

Dominic - Founder & Director

Feefo Customer Service Award shows that we did many things right. There is plenty more for us to learn and improve upon and we do so every day, taking every opportunity and all of your constructive feedback to become better as individuals and an organisation.

All this would not be possible without you - our customers and the whole team of people who across all the years have built Letterbox4you into what it is now. I am confident that with your continuous support and with an ever increasing range of letterboxes in our catalogue, we will be continuing our journey from one successful "mailstone" to another. (It's a letterbox joke!)

As always, we are keen to talk to you if you think we can assist you with any of your projects which require high quality, communal post boxes. You can reach our Business Development team and Product & Delivery team by simply e-mailing your enquiry to trade@letterbox4you.co.uk or calling us on 01296839401.

Please feel free to share any feedback with me personally, especially when you feel that we have some area for improvement and could do something differently or better. My e-mail address is dominicpoznanski@letterbox4you.co.uk.

Thank you for reading and I hope we will soon have an opportunity to work on one of your projects.

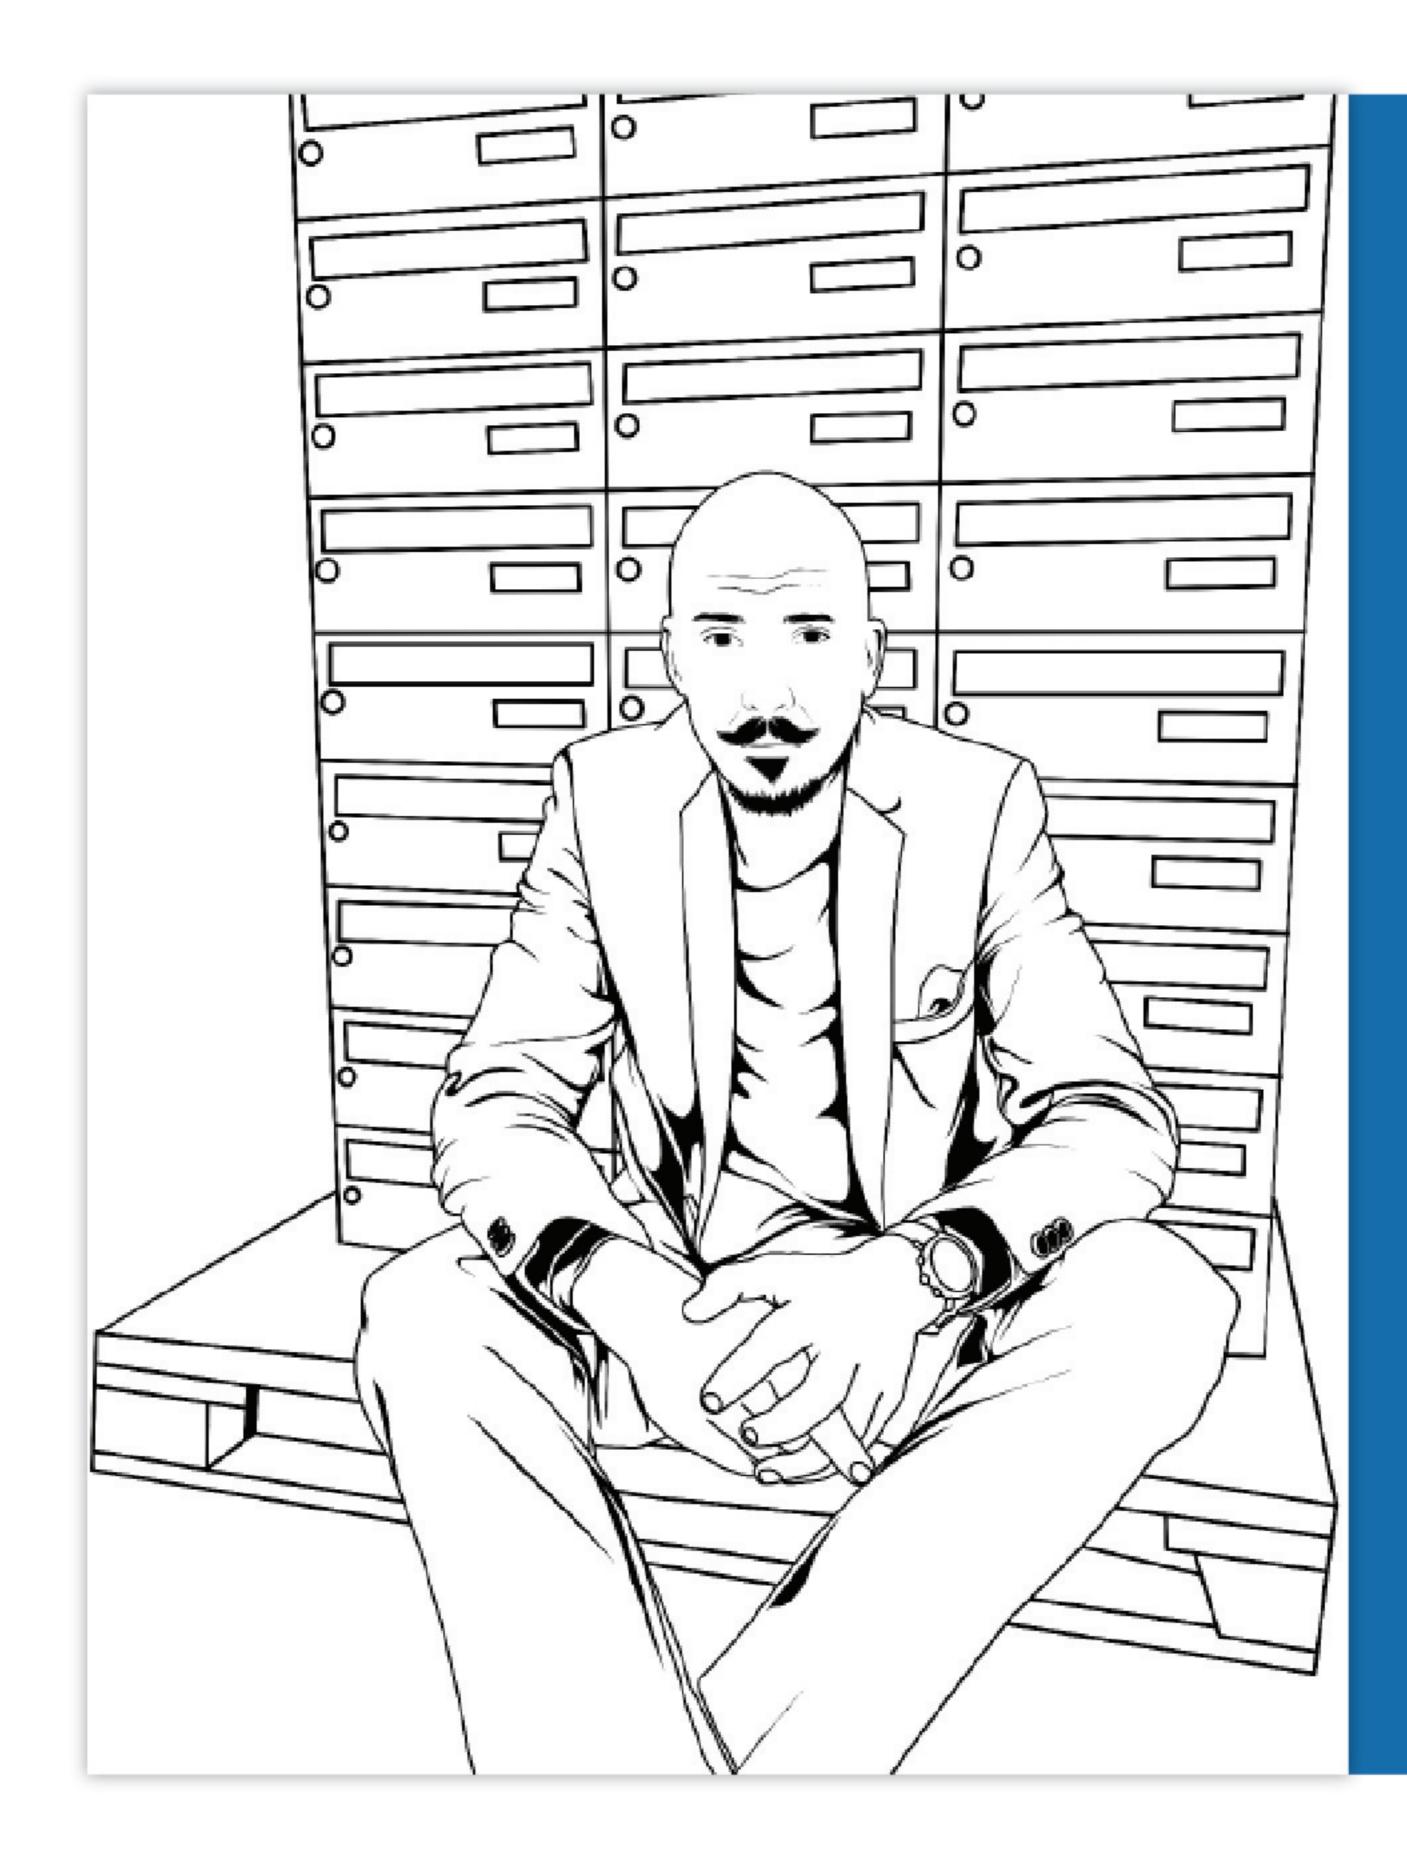

Kind Regards

#### Dominic

Founder & Director

## ABOUTUS

Quantity or Quality? Always Quality! We could easily double or even triple our revenue by supplying cheaper, poorer quality products. Instead, we stay true to our core values and supply only the highest quality units.

#### The Team

There's a whole team of people that work behind the scenes to make Letterbox4you a leading supplier of post boxes in the UK. We wanted to create a workplace with lots of flexibility, work/life balance and a brilliant atmosphere every day. I like to think that we succeeded and were rewarded with attracting great people who all have the same mindset, becoming successful professionals, and through that making our business successful as well. We know how to have a fun during the working day, but we will work hard to get your order processed efficiently and delivered on time! We also have good friends outside of our organisation, hand-picked suppliers & freelancers that support us and deliver a great experience for our customers. Our suppliers are important to us and we always treat them as an integral part of the team.

### The Core Values

#### OK IS NOT ENOUGH

Strive for the best results and never get satisfied with the status quo. Always think "Can I do it better?"

#### PASSION IN ALL WE DO

Show passion for our business and your job. This will be the foundation to build something great.

#### LEARNING MEANS GROWING

Keep looking for learning opportunities to improve personally and professionally and our business will improve with you.

#### **CHANGES LEAD TO GREATNESS**

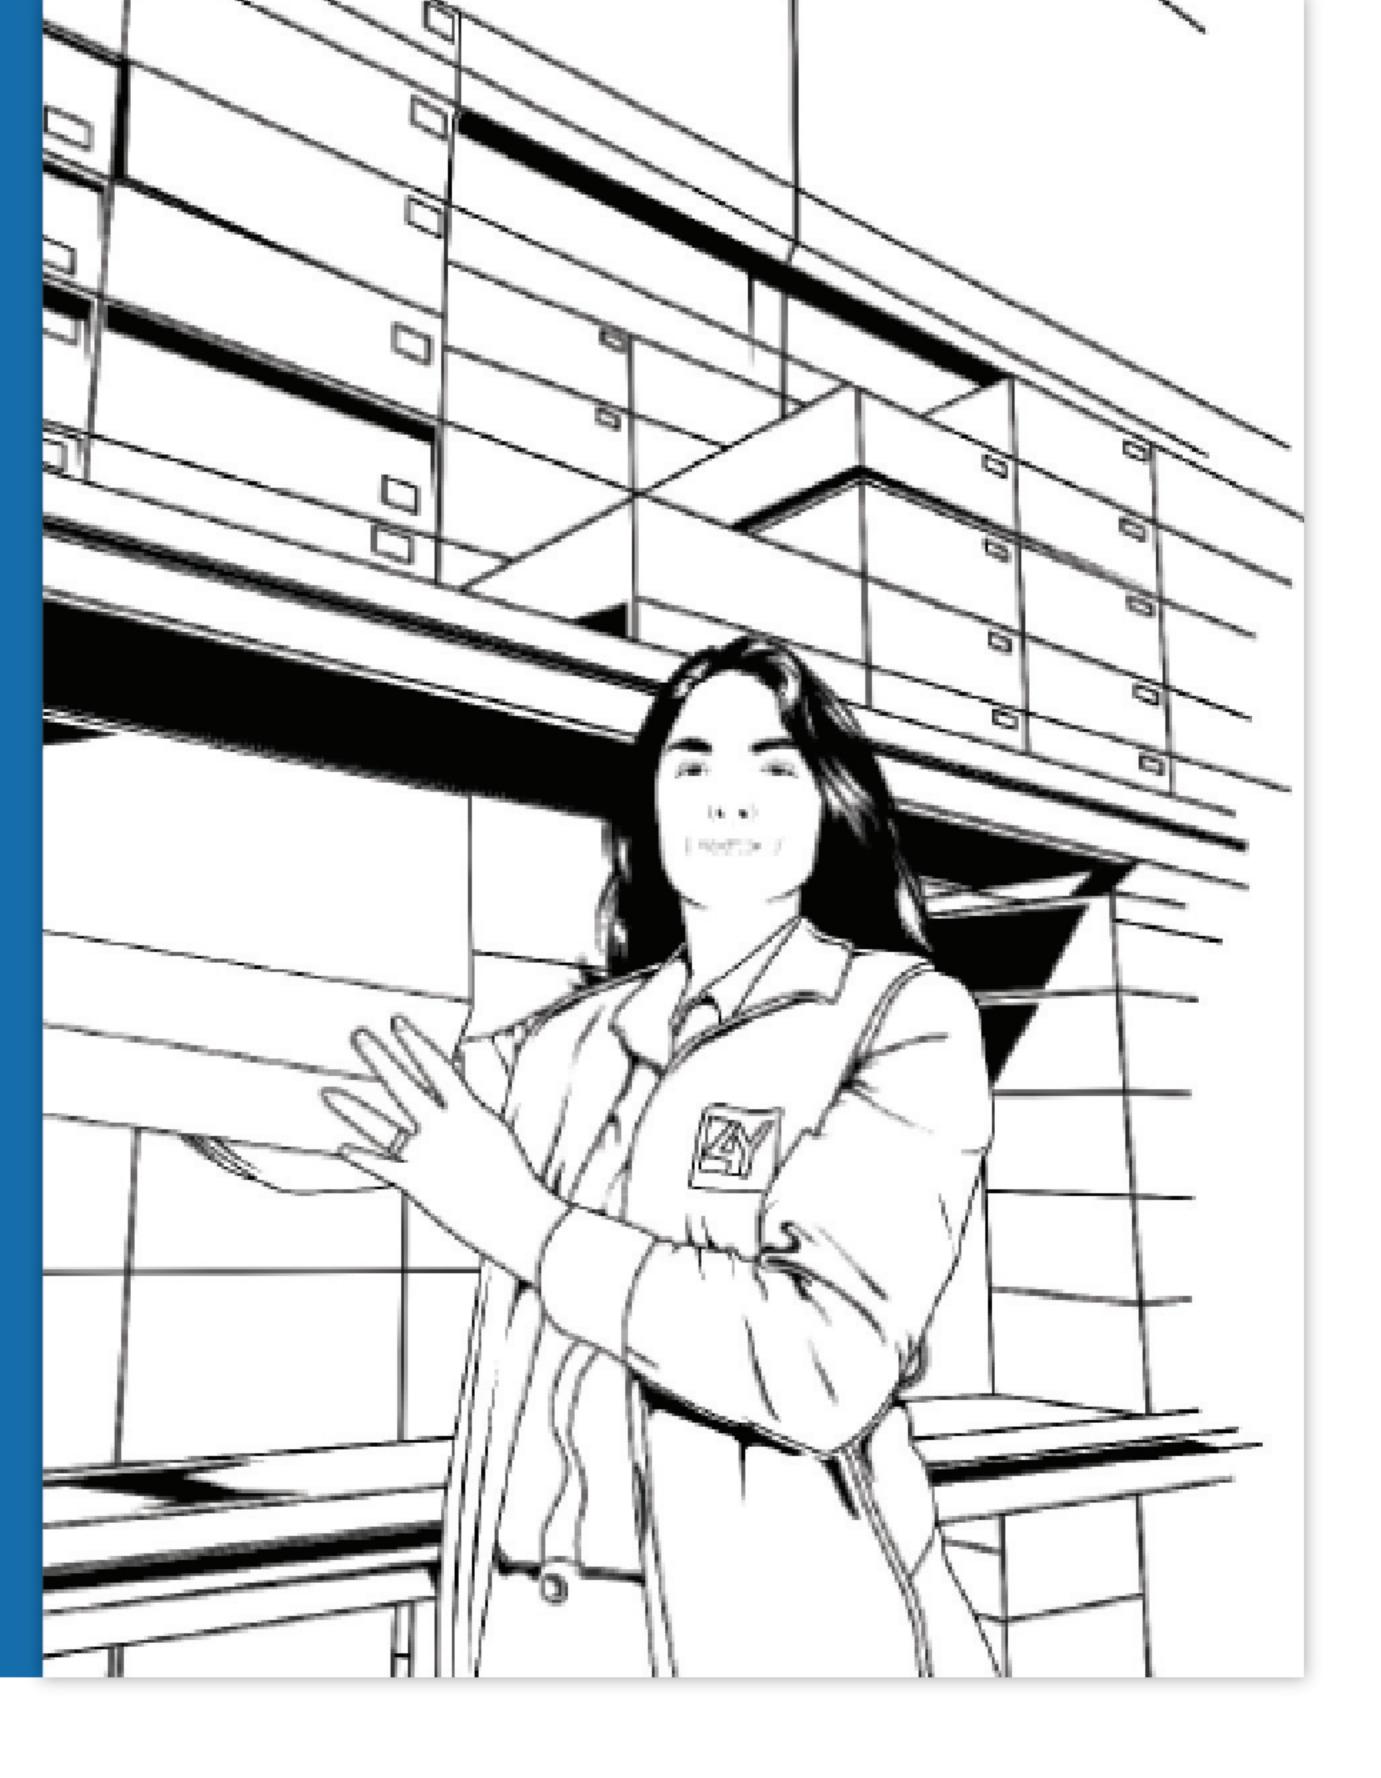

Embrace changes, ask for them and drive them. It's the only way to build a truly great organisation.

#### **SUCCESS BUILT ON CONTRIBUTION**

We cannot make it happen without your contribution. Show every day that you are instrumental to our growth and success.

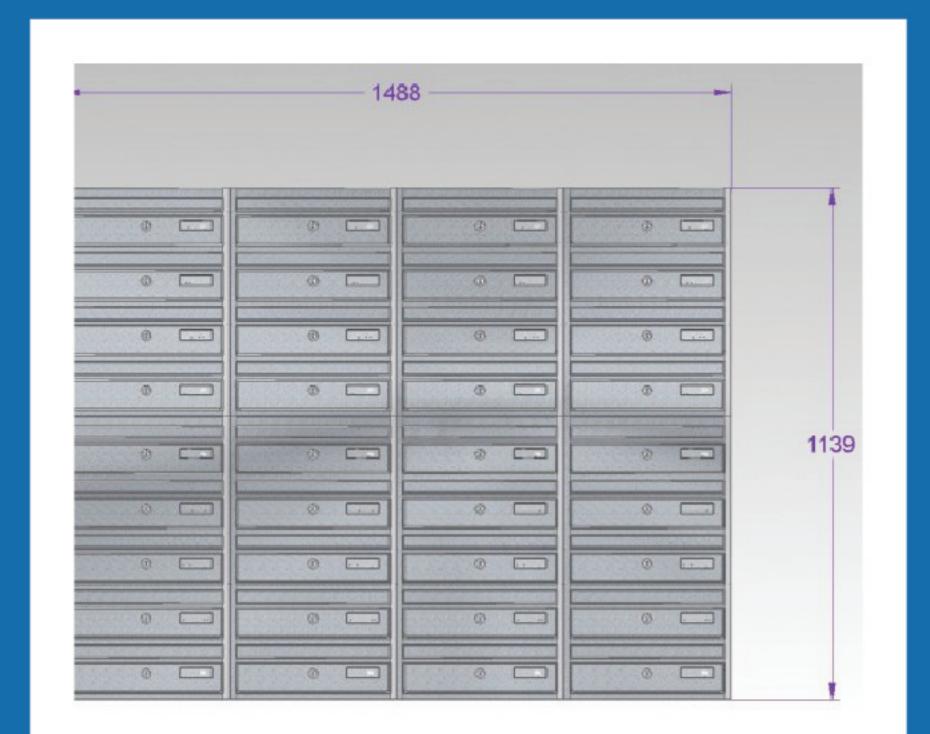

#### **FUN AND POSITIVITY START WITH YOU**

Bring a smile and positive attitude with you to work each day and those around you will respond positively to you.

## TESTIMONIALS

"The growth for our business hinges on us being able to offer clients a wide range of high-quality products. As a sales team we Feel safe in the knowledge that once a client has our product delivered, they will be a very satisfied customer! Word spreads quickly in the construction industry and we are happy and proud to be recommended by tradespeople, the quality speaks for itself and is what has allowed our business to grow so rapidly."

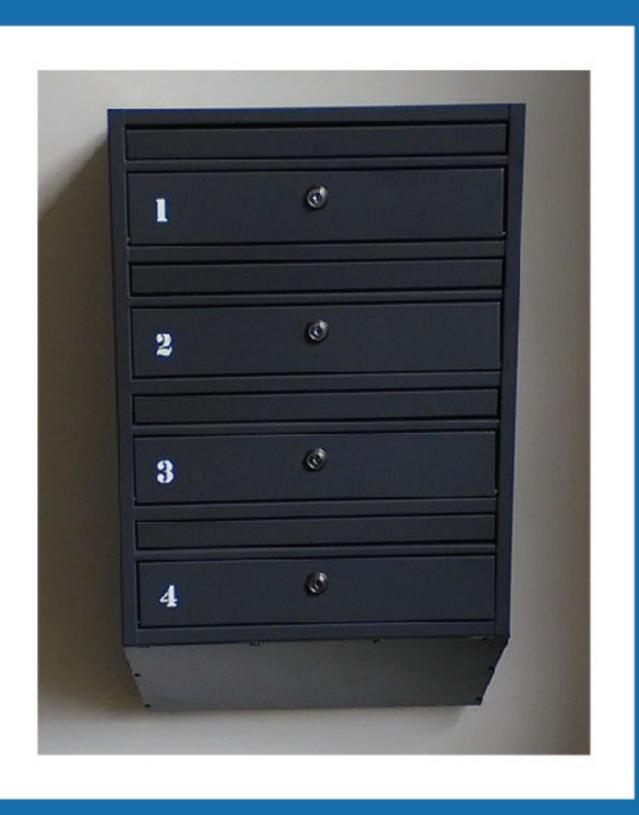

"As chair of the Owners Association I wanted to write to say how happy I have been with both the product and the service from LETTERBOX4YOU. We have undertaken a refurbishment of all the communal areas of our residential block and one of the important elements was replacing our outdated postboxes which were very outdated and too small for A4 mail. I obtained quotes from a number of different suppliers and not only were the prices from LETTERBOX4YOU very competitive but the product quality was excellent. And they were able to accommodate our specific flat numbering system without any additional charges or fuss. Even more impressive was the quality and care we received. Making choices on colour, layout, design on behalf of over 60 Owners is challenging and Jo was incredibly helpful with my multiple questions and gave support and advice on colours, sending me pictures of other installations so I could get a sense of how things would look and could share these with the committee. I would be very happy to recommend them to anyone considering new letter boxes."

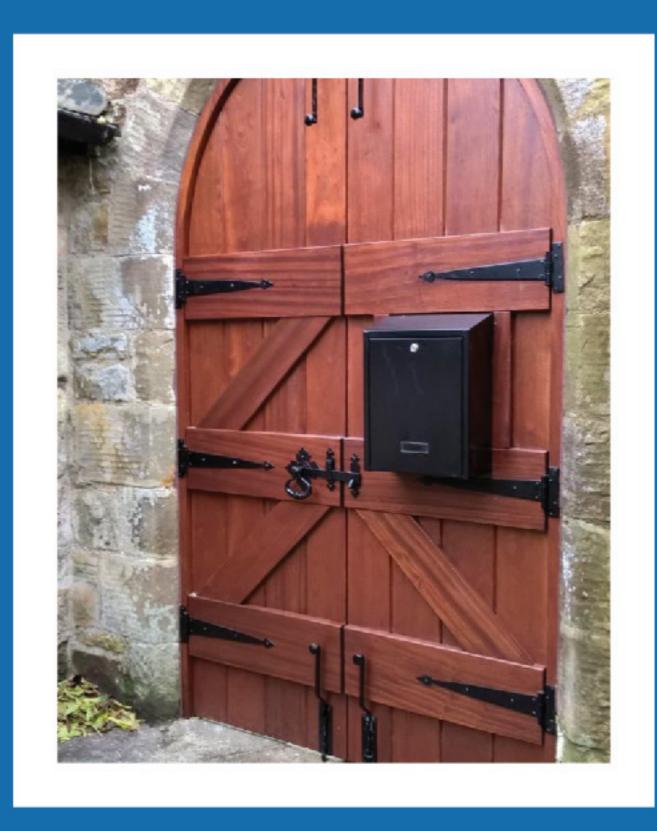

L H, Chair of the Owners Committee

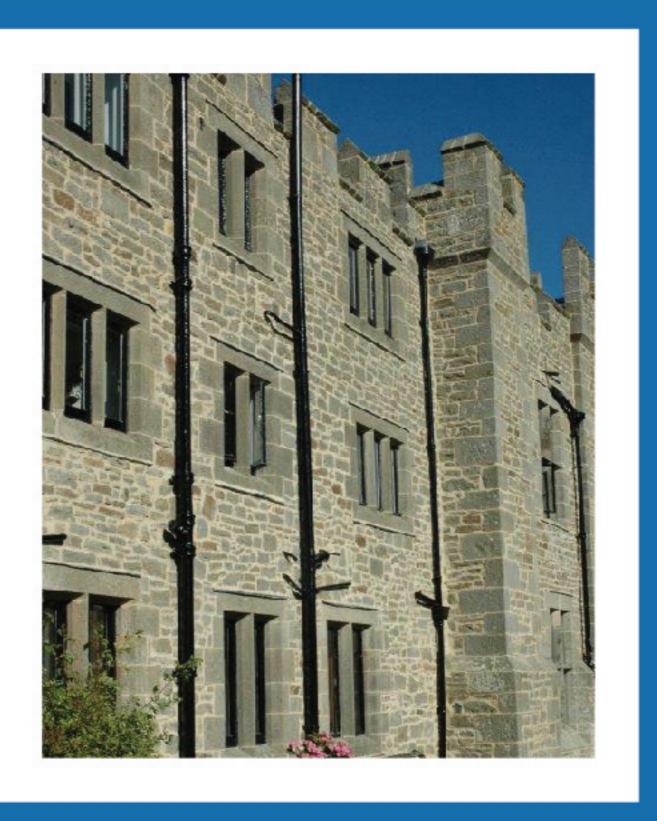

"We always use Letterbox4you for all of our developments as the boxes are high quality, have a contemporary look (we use style E1S) and are very reasonably priced. Dominic provides excellent service and delivery is always to schedule, we recommend this company."

Fenella, Property Developing Company

"We are delighted to say that we have found the quality of our Letterbox4you letterbox to be exactly as described well made, functional and an attractive addition to our gate, as we had hoped."

Residents Of The Castle

## URBAN EASY

Our Urban Easy range was created to accommodate the needs of our clients who were looking for a high quality product, whilst still remaining budget friendly. We chose to work with a family-owned business established in 1955 to manufacture the range, with the faith that it would be made with plenty of knowledge and experience. More importantly, they showed to hold the same core values as us, and with the owner often personally checking on the quality of the products on the production line, we know we are in safe hands.

Our most popular products from Urban Easy range are the E1 wall mounted letterboxes, perfectly suited for internal communal areas and coming in banks of 3,4,5 and 6. We can supply them with a master key option and with tastefully engraved flat numbers on steel plates.

## TOCCO DI ITALIA

Our Tocco Di Italia range was created using the best of the best Italian based manufacturer. We can guarantee that if you ask who the leading supplier of the letterboxes is in Italy, the answer you will most likely hear is "Alubox". It is another family-owned company with a long history of making letterboxes which specialises in aluminium products. This is especially helpful when you are looking for a solution for seaside locations where galvanised, powder-coated steel is not sufficiently resistant. Another thing you will notice about the Tocco di Italia range is that, like with the majority of "Made in Italy" products, there is a certain finesse and chic about them, something more classy, just like the curvy Alfa Romeo you saw yesterday passing the coffee shop!

## CITY HALL W CityHall

If you are looking for a more complex and technically advanced solution or more customisation, there is the City Hall range. This range can be manufactured from stainless steel or galvanised- powder coated steel, depending on your requirements. We pride ourselves on the ability to be able to manufacture sets of post boxes mounted into 4mm-50mm panels, they are suitable for mounting through the wall or inside of a double glazed door panel. One of the latest products in this range is the Beta- communal parcel box with incorporated letterbox, perfect for combining into larger sets in small blocks of flats and apartments.

## WHY BUY YOUR LETTERBOXES FROM LETTERBOX4YOU?

"Core values say a lot about a company, its people, culture and vision. Our core values drive our decision making and help keep us focused on what's important. That way everyone pulls together to make the company the best it can be."

Pauline-Letterbox4you-Operations Manager

Here at Letterbox4you, we pride ourselves in taking that little bit of extra care in everything that we do. One of our core values is "Ok is not enough" and that can be felt throughout the whole business. We aim to stand out from the pack and certainly feel we have something special to offer, but why should you, as the customer choose to purchase your letterboxes from Letterbox4you?

#### **QUALITY PRODUCTS**

Right from the very start our business model was to offer a range of quality products that could be relied upon to stand the test of time. We are aware that there are a lot of options on the market, and we make sure to only work with manufacturers that have a long track record for working reliably with high quality raw materials and workmanship.

#### PRICE RANGE

Not everyone likes to admit it, but price can be the deciding factor for some projects! We aim to be able to provide you with choices when it comes to each project you are working on. So, if you just need a temporary solution during building works, we can offer a suitable budget option. However, if you are looking to add the final touches to a high-end development, we can also work with you to achieve the perfect finish that will meet client expectations. There are also plenty of product ranges in between and our team will always be happy to talk you through the best options.

#### **AVAILABILITY**

We are one of the very few suppliers in the UK that has stock available for immediate dispatch. With some of our ranges, we can have your order prepared and sent to you with next day delivery! This is pretty much unheard of in the industry, and it can really make the difference for projects with tight time constraints. Of course, with custom builds and bespoke ranges it may take several weeks to manufacture your letterboxes to your requirements, but we always aim to keep this to the best lead time available.

#### **CUSTOMER SERVICE**

You will notice from our literature and website that we proudly display our customer service awards. This is because great customer service is something that we take very seriously. It's more than just a friendly voice at the end of the phone, (although we certainly hope we offer that) it's about product knowledge, being able to listen to our customers and offer solutions. You may not know a lot about letterboxes and the choices available when you first need to purchase, but we do. Our team will listen to your requirements, check restrictions and measurements and then help you to make an informed choice.

#### AFTERCARE

Once you have received your letterboxes and they are looking fabulous in your new development, you probably don't really want to have to think about them again. But what happens when a tenant loses their keys, or someone damages their letterbox door? We are always here to assist with any issues, we have many spare parts in stock and if we do not have the spare part on site, we can source it from our manufacturers and keep your letterboxes running smoothly. If you are handing the building over to a managing agent, then be sure to give them our contact details.

## AFTER SALES SERVICES

We hope you are really pleased with the letterboxes which have been fitted in your building. They have been designed with usability and practicality in mind. They are built from high quality, galvanised steel or aluminium to be hard wearing and long lasting. If over time you require any replacement parts or in the rare case you experience any problems with the boxes, we are on hand to advise you and supply replacement parts.

#### We supply:

- Replacement numbers for the stainless steel etched plates, most numbers are held in stock
- @ Replacement locks-which come complete with two keys, held in stock
- Replacement keys
- Master keys
- **Ø** Spare doors
- Replacement boxes

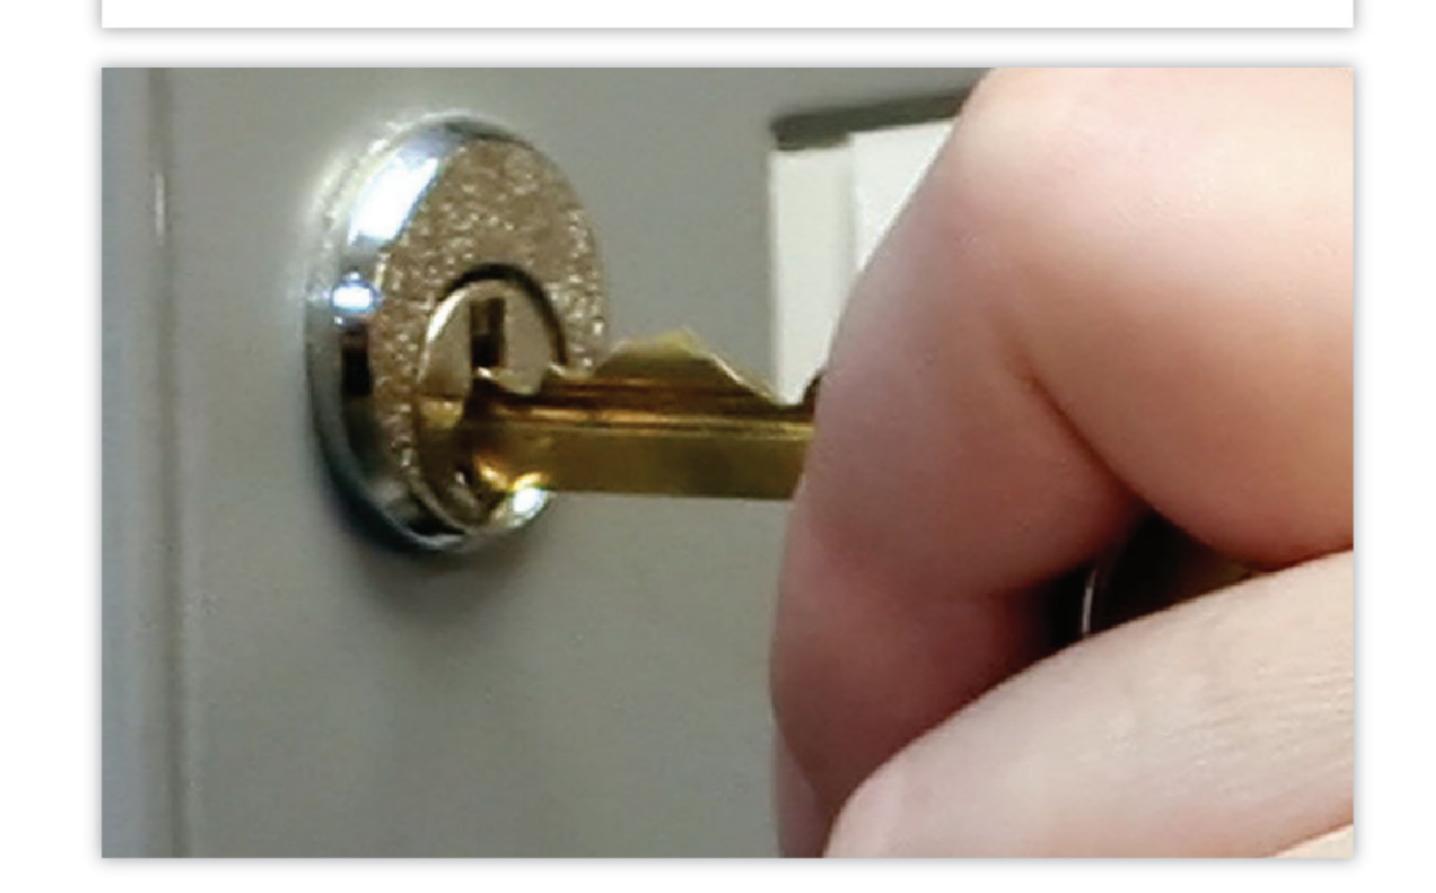

#### Replacement parts:

Should one of the boxes become vandalised or damaged during use we are often able to replace the damaged part of the unit (depending on construction) as they are made up from banks, so the damaged bank can be removed and replaced. We hold many of them in stock however, if your boxes are a custom colour we can have them made up for you at our factory (there will be an increased lead time for this service). Many any of these items can be quickly and easily purchased directly from our website: www.letterbox4you.co.uk using "accessories" section
