

Black Teknigas Powerseat® Eco

Electro-Hydraulic Gas Safety Shut-off Valve

WattsIndustries.co.uk

WATTS®

Powerseat[®] Eco

Watts Industries is a multi-national company founded in the USA in 1857. Specialising in Water, Gas & Electronic technologies.

With over 50 years experience, Watts are the UK's leading manufacturer for the safe control of Combustion, Industrial, Medical & Laboratory Gases.

The Powerseat[®] electro-hydraulic gas shut-off valve allows the control and safety shut-off of low pressure combustible gases in pipes from 40mm to 250mm, whilst focusing on being energy efficient and environmentally friendly. The Powerseat Eco shut-off valve is kept open by a hydraulic pump where hydraulic fluid is forced into a cylinder driving the valve open.

New and improved features

- LED to display “ON” and “manual Re-set required” status
- Increased environmental protection to IP56 equivalent
- Manual re-set switch incorporated on all versions
- IP67 equivalent rating option available
- Screwless quick connections for installation of electrics
- Volt free contacts for BMS connection

Power consumption

- Uses just 6% of the power that a comparable magnetic solenoid valve uses
- Reduced electricity running costs: Uses just a fraction of the energy required by permanently energized magnetic solenoid valves
- Improved energy efficiency from previous Powerseat® model, reduced from 26 VA to 10 VA

Environmental factors

- Around 768kg less carbon emissions than with a comparable magnetic solenoid valve*
- Saves the equivalent carbon emissions of 3,758 miles in a car.

Quality

- 3 year warranty as standard
- UK manufactured
- EC certified
- IP56 standard:
 - Dust protected - no harmful deposit
 - Water jet protected - from any direction
- Certified to EN161, Class A Group 2 construction

	VA	Watts	KwH	KG CO ₂ /Hr	KG CO ₂ /Yr
Electro-Hydraulic	10	10	0.010	0.005	46.2
Traditional solenoid valve	170	170	0.17	0.09	784.8
