

## PREMIUM TWO-TIER BIKE RACK

The Ultimate High-Density, Space-Saving Cycle Rack

The Premium Two Tier Bike Rack is the ultimate for achieving excellent space saving bike storage whilst ensuring a usable system for your users. Offering superb usability and exceptional build quality, it has become the bike rack of choice for any area requiring high quality and high-density cycle storage. Suitable for public transport stations, universities, shopping centres, car parks and offices, it accommodates all types of bicycles which are securely supported in the tyre channel.

The rack also offers high security as both the wheel and the frame are able to be locked to the rack. Made in Britain and backed by a 10-year manufacturing warranty, the Premium Two Tier Rack is built to last. Framework is hot dipped galvanised to BS EN ISO 1461: 2011 as standard, with a powdercoating option available. BREEAM compliant so you can specify with confidence.

- › **10-Year Manufacturing Warranty:** Built to last, the Premium Two Tier Rack is backed by a 10-year manufacturing warranty.
- › **Upgraded Locking Hoop:** A reinforced steel locking hoop allows cyclists to secure both the frame and wheel to the rack.
- › **375mm - 400mm Centres:** Racks are supplied at 375mm to 400mm centres as standard, with bespoke spacing available to suit your specific site layout.
- › **Extruded Aluminium Channels:** Precision-engineered aluminium tyre channels provide smooth, secure bike loading at both levels.
- › **Gas Strut Mechanism:** An integrated gas strut on the upper tier significantly reduces the effort required to lift and lower bikes.
- › **Galvanised Framework:** The structural framework is hot dipped galvanised to BS EN ISO 1461: 2011 as standard.
- › **Made-in-Britain**

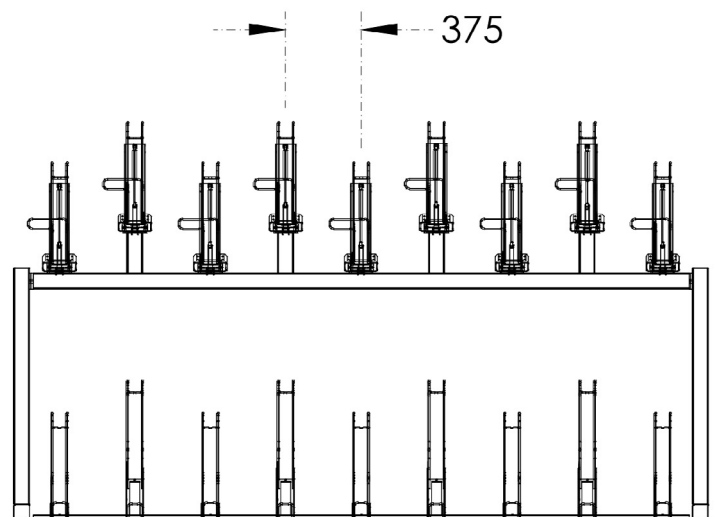

## PREMIUM TWO-TIER BIKE RACK

The Premium Two Tier Bike Rack delivers high-density, space-efficient cycle storage without compromising on usability or build quality. Designed and manufactured in Britain, it is the rack of choice for commercial buildings, transport hubs, universities and public sector projects where maximising capacity in a limited footprint is essential.

### Customisation that Works for You

Every site is different which is why this bike rack is built to adapt:
