

# 2 CHANNEL BATH FILL CONTROL BOX

## Low Voltage

### SH07-022

The bath filling control system (SH07-022) can be used with wave-on or tactile switches. The half fill level is half that of the full fill which is adjustable. There are a number of kits available to suit a wide range of requirements. Benefits of the bath filling control system are similar to the shower control system except that it operates a single valve post thermostatic mixer, with the option of hot and cold if required. – Control box only – Complete with 6 x C Cell Batteries

#### PRODUCT NUMBER

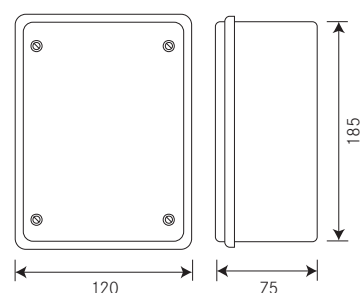

SH07-022	2 Channel Bath Fill Control Box
----------	---------------------------------

#### TECHNICAL DATA

Weight	1.1 kg
Material	Polycarbonate
Run Times	Please see instructions
Power source	6x AA C Cell Batteries
IP rating	54
Voltage	6/9V DC
