

From inspiration to installation...  
**your roofing solution provider...**

**The roof of any building, is so much more than a covering.**  
Not only is the roof an important part of the building envelope protecting it from the full force of nature...

...it is now viewed to be a platform for the delivery of key benefits including;

- Provision and conservation of energy
- Provision of a balanced and sustainable contribution to the urban and built environment

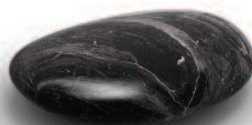

With many years of expertise in all aspects of roofing nuances, **SIG Design and Technology** is perfectly positioned to work with you to ensure that your roofing requirement delivers;

- Optimum performance
- Sustainable credentials
- Inspirational design
- Innovative product solutions

**SIG Design and Technology** is an active member of many reputable industry organisations, including;

- The NFRC
- The Flat Roofing Alliance
- The Metal Roofing and Cladding Association
- The Single Ply Roofing Association

Through these trade bodies, we pursue our deep commitment to Health & Safety, to quality assurance, and to continuous improvement in working practices in every aspect of roofing construction and maintenance.

**We only work with innovators** that can provide products and services which meet and exceed all stringent codes of conduct and legal requirements within the roofing industry. These may include CE, BSI, BBA etc.
