Sigma doors can be supplied in steel/glass, steel/mesh, all mesh and all steel configurations.

### ADVANTAGES

Sigma doors can be glazed, meshed or all steel making them suitable for many applications.

### APPLICATIONS

Sigma doors can perform as access to secure areas as well as in factory or warehouse applications.

### FEATURES

Options are available for single, double and sliding doors as standard.

Sigma doors provide a secure divide between areas.

Here Sigma doors have been used as an access point to a secure enclosure.

Available in 3 heights as standard, any height can be accommodated for.

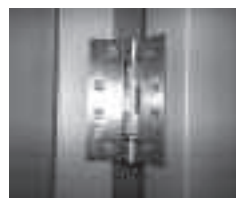

Glazed doors use laminated glass for durability. Glass is also easily removable.

A wide variety of mesh sizes and styles are available for different applications.

Sigma doors use box sections to create a secure, sturdy door.

Stainless steel hinges come as standard.
