Sigma sliding doors provide a simple, secure solution for areas where normal doors would not be feasible or practical. Options are available for full mesh, steel and mesh, steel and glass, steel/glass/steel and full steel.

ADVANTAGES

Sigma sliding doors are ideal for secure storage. The standard padlockable eyebolt is extremely strong with options available for euro and deadlock claw locks.

APPLICATIONS

Doors are available in sizes to suit most applications with custom specification doors available upon request.

FEATURES

Bi-parting doors offer easy access while using minimum space.

Flush pull handle is standard on Sigma sliding doors.

A selection of trolleys are available to cater for different applications, making Sigma sliding doors very versatile.

Padlockable bolts are standard on Sigma sliding doors.

Sigma's tough construction makes it extremely durable and hardwearing.
