## About Sauna360

Our history of innovation

With roots going back as far as 1916 **Sauna360** is the oldest sauna company in the world.

Today the group consists of five prominent sauna brands: Tylö, Helo, Kastor, Finnleo and Amerc. The brands all have a crucial role in developing the market consisting of high quality bespoke sauna rooms, sauna accessories, steam rooms and wellness technology.

Our journey started with Kastor as the first Finnish sauna brand in 1916 followed by Helo as the first manufacturers of electric sauna heaters in the 1950's. In 1951 the founder of Tylö built his first heater, and has been in the forefront serving the market ever since. In 1984 Finnleo took the Finnish sauna to the US and became North America's pure sauna specialist.

Today we continue creating top quality sauna, steam and wellness products made to be a vital part of healthy living.

Brief  
History

**Bespoke  
Designs**

## Bespoke Home Sauna & Steam Room

At **Sauna360** We have been providing bespoke sauna, bespoke steam rooms and infrared solutions to residential properties across the UK since 1990. Renowned for working with some of the country's top architects and interior designers, Sauna360 has unrivalled experience in developing spectacular wellness suites in homes of all sizes.

## Built to your exact specification

At **Sauna360** we design, plan and build a private sanctuary to your exact specifications. Our development process is unencumbered by the restrictions of off the shelf components and materials. Instead, we create something that fits your space, taste and budget, leaving you with an environment perfectly tuned for maximum rest and relaxation.

## Only premium brands

We work with a selection of carefully chosen premium brand partners who offer the best available products to suit our clients' needs and desires and are not restricted to one manufacturer. This provides limitless design possibilities.

## Your private sanctuary

We design, plan and build a private sanctuary to your exact specifications. Our development process is unencumbered by the restrictions of off the shelf components and materials. Instead, we create something that fits your space, taste and budget, leaving you with an environment perfectly tuned for maximum rest and relaxation.

## Brand Partners

Sauna360 can assist you to design your own sauna or steam room interior to suit your taste. From benching options to decorative ceilings or beautiful crystal features and design led sauna heaters, create a bespoke interior which suits your wellness requirements precisely.

We are proud not to be limited by the constraints of one provider. We work tirelessly to source the best products from the best suppliers around the world. It is these loyal long term relationships with superior suppliers that allows us to provide our industry leading aftercare. Here are just a few examples of our trusted brand partners...

### EOS

EOS has been developing and building sauna technology for more than 50 years for the international superior and luxury market.

The product portfolio contains trendsetting and high-quality electric sauna heaters to suit all sauna cabin designs, whatever the size or layout.

Underbench and behind bench heaters developed by EOS are becoming increasingly popular both for reasons of safety and cleaner bench layouts.

### Microcement

Where a tiled surface is not appropriate, bespoke microcement finishing provides a smooth flowing surface which can be varied in texture to client choice. A special seal is used to protect this surface in the high humidity of steam rooms.

Sauna360 works closely with two specialists in this field who are experts in the use of this product in steam rooms.

### Sommerhuber Heat Storing Ceramic

We are proud to partner with Sommerhuber to offer heat storing ceramic products for your home wellness area. Superior to all other ceramic materials and founded in 1419, Sommerhuber ceramic stores heat and emits it directly to the body as opposed to heating the room. Immerse yourself in the comforting heat promoting relaxation and vitality.

From beautiful ceramic loungers and clay spa products through to full spa solutions, Sommerhuber offers a wide choice of colour glazes to suit most aesthetic choices. Large format panels with minimal joins result in a beautiful and hygienic surface that is easy to clean.

### Siminetti

We work closely with the luxury Mother-of-Pearl tiling brand, Siminetti. The best and the original specialist in shell surfaces.

Utilising both freshwater pearl and saltwater pearl, Siminetti's Mosaics and Decorative Panels are available in an exclusive series of colours, styles and patterns. All of their luxury surfaces are handcrafted and sourced from eco-friendly, sustainable sources.

Mother of pearl is unmatched by any man-made materials, creating a lasting impression in the most luxurious of steam room interiors. The super thin mosaics are particularly suited to steam rooms both for following contours and reducing heat up time.

Unlike other copies, Siminetti have full BS EN ISO certification enabling them to offer a market leading 10 year warranty for steam room use.

**Design &  
Installation**

## Consultation

You will initially have a phone consultation with Antony or Andrea who will discuss your ideas at length and help realise your design wishes. Professional drawings will be produced and can be refined and amended to suit. Antony and Andrea have lots of experience working with architects and interior designers and can work in conjunction with your team if your sauna and steam room are part of a wider renovation project.

## Installation

Once a design has been approved, we will explain all the necessary site requirements and then we will book a convenient time for our installation team to come and fit your new sauna or steam suite and commission it.

## Peace of mind

That isn't the end of the journey for us. Sauna360 UK is the only UK sauna and steam provider to offer a 5 year warranty on all residential products. We are always at the end of the phone for 5 years, and beyond, to support and advise you when needed.

## Residential Division

At **Sauna360** we are experts in sauna, steam and infrared. Thousands of hotels, spas, gyms and clubs rely on Sauna360 for their leisure facilities, and with a wide range of home sauna cabins & steam room products you can now relax with Sauna360 at home.

Part of the global Sauna360 Group, we specialise in creating traditional sauna, steam, Infrared and wellness experiences for a modern lifestyle. With manufacturing plants in Finland, Sweden and USA, continual product research and development allows Sauna360 to create top quality sauna and steam products with full service back up and the added comfort of the Sauna360 5 Year Warranty on domestic installations!

Sauna360 has designed and worked on a number of award-winning spas that have received accolades from The Good Spa Guide, AA Hospitality Awards, The Bubble Luxury Spa Awards and more. This unrivalled expertise and experience, makes Sauna360 the top choice for sauna and steam needs across the UK today.

## The Residential Team

Antony Watkins  
Sales Director  
[antony.watkins@sauna360.com](mailto:antony.watkins@sauna360.com)

With nearly 50 years experience working in the Sauna and Steam industry, Antony is renowned for his incredible knowledge and passion for authentic thermal experiences. His attention to detail and technical knowledge set him apart from others. He sees clients as long-term relationships who stay in touch for years to come.

Andrea Hallam  
Designer  
[andrea.hallam@sauna360.com](mailto:andrea.hallam@sauna360.com)

Andrea started her career as a senior buyer for Harrods before joining Sauna360 10 years ago. Her keen eye for design has been invaluable in developing ever more elaborate designs for our clients. She is a fabulous addition to the Sauna360 UK team regularly praised by clients for her positive attitude and efficiency.

Case  
Studies

## Sauna & Steam Wellness Suite

On finding a beautiful, multi acre site in the Sussex countryside, our client planned a new luxury residence and then turned his attention to the leisure facilities – specialists created the stunning swimming pool with full length bespoke wall mural with poolside loungers whilst Sauna360 were invited to create a special design sauna with all glass front and feature tower heater. We then completed a more discrete steam room in rich blue mosaic tiling for personal bathing and revitalisation. Great attention was paid to feature lighting throughout which now presents a soft, warm and inviting space to wind down and relax.

**Bespoke Sauna** - Our client came to us with a design idea for a modern, sleek sauna interior that did not use traditional horizontal or vertical wall panelling. Sauna360 UK was able to bring the client's ideas to life using bespoke sauna boards to create a clean, contemporary look that is just as efficient and comfortable whilst also achieving the desired aesthetic.

**Bespoke Steam Room** - Sauna360 also installed an opulent, bespoke steam room alongside the sauna. Finished in a deep blue glass mosaic with generous, sweeping roll front benches, the client is able to relax in comfort and style.

## Poolside Steam Room and Sauna

Having completed the construction of his beautiful new home in the Surrey countryside, our client turned his attention to the provision of a large wellness area to include swimming pool, sauna, steam room and relaxation area. The solution to achieving a luxurious and expansive health suite was ingenious.

Following the current fashion for forming basement leisure areas, this client had an intriguing twist: excavate under the rear garden to make huge space with dual purpose – partly as secure underground parking for his beautiful motor car collection and the remainder to allow the installation of a large, stunning swimming pool complemented by sauna and steam room both featuring full width, clear glass fascias and U shaped benching to emphasise the great social occasion of heat bathing. Clean contemporary panelling, subtle lighting and a feature faux-living wall complete the sense of opulence and comfort.

Naturally a beautiful garden was reconstructed, hiding completely the wonders below, now accessed via a neat garden gazebo!

**Sauna** - Warm Alder panelling was chosen for the sauna with a hidden heater to have clean lines and ensure absolute safety for young ones.

**Steam Room** - The matching steam room was lined in beautiful pearl green mosaics to echo the pool finish.

Yet another angle on how to introduce a wellness feature at home, all beautifully presented and a project in which Sauna360 were proud to play our part!
