INNOVATIVE FLUSH TECHNOLOGY

Geberit Rimfree® toilets are equipped with a specially developed and patented flush guide which ensures a targeted and hygienic flush every time.

CLEANLINESS

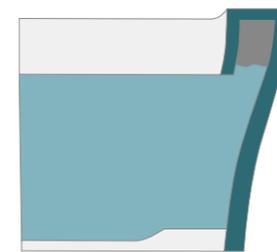

EASY TO CLEAN

RIMFREE®

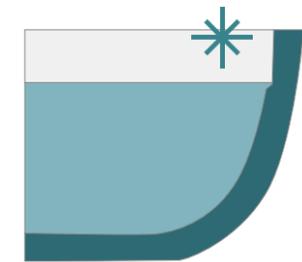

Keeping the bathroom spotless is a must, because cleanliness and hygiene are important, especially in the bathroom. Cleaning should not become a hassle where one has to deal with tricky corners and difficult to reach places. Most people would also rather avoid handling harsh cleaners. Modern bathrooms are neat and orderly so it comes as no surprise that this trend also applies to the toilets with the introduction of Rimfree®.

Geberit has introduced a completely new and patented flush technology. The flow of water is controlled just before it reaches the ceramic pan. A flush guide sends the water stream along both sides to the exact area where it is needed for a clean and thorough flush and only there.

www.geberit.co.uk

↑
Common toilet pans depend on a flush rim which cannot easily be cleaned. Dirt and bacteria accumulate in this difficult to reach place resulting in unpleasant odours.

↑
With the Geberit Rimfree® technology however, there is no rim. The smooth inner surface of a Geberit Rimfree® toilet pan is cleaned with one swipe. And best of all, you can immediately see if all dirt has been removed.

COMFORT CLEANLINESS AT THE TOUCH OF A BUTTON

Geberit has spent the past 40 years continuously fine tuning the shower function and spray, the centrepiece of any shower toilet. At the same time, we have invested in developing innovative technology and comfort functions, making our shower toilets the market leader. Depending on the model, a host of features make for a truly pampering experience.

www.geberit.co.uk

NO UNPLEASANT ODOURS*
The odour extraction unit removes unpleasant odours as the system starts automatically upon sitting.

YOUR OWN PERSONAL WELL-BEING PROGRAMME
The intuitive remote on the Tuma Comfort provides hand-held control, and the touch of a button is all it takes to call up personal settings. The Geberit App is available on Tuma Comfort and Tuma Classic.

SUPERIOR COMFORT*
The high quality ergonomic seat features integrated heating.

GENTLE PERSONAL HYGIENE*
With an additional shower spray, the gentle lady shower ensures safe personal hygiene using pure water.

USER-ORIENTED*
An in-built proximity sensor activates the water heating system, seat heating and orientation light on approach.*

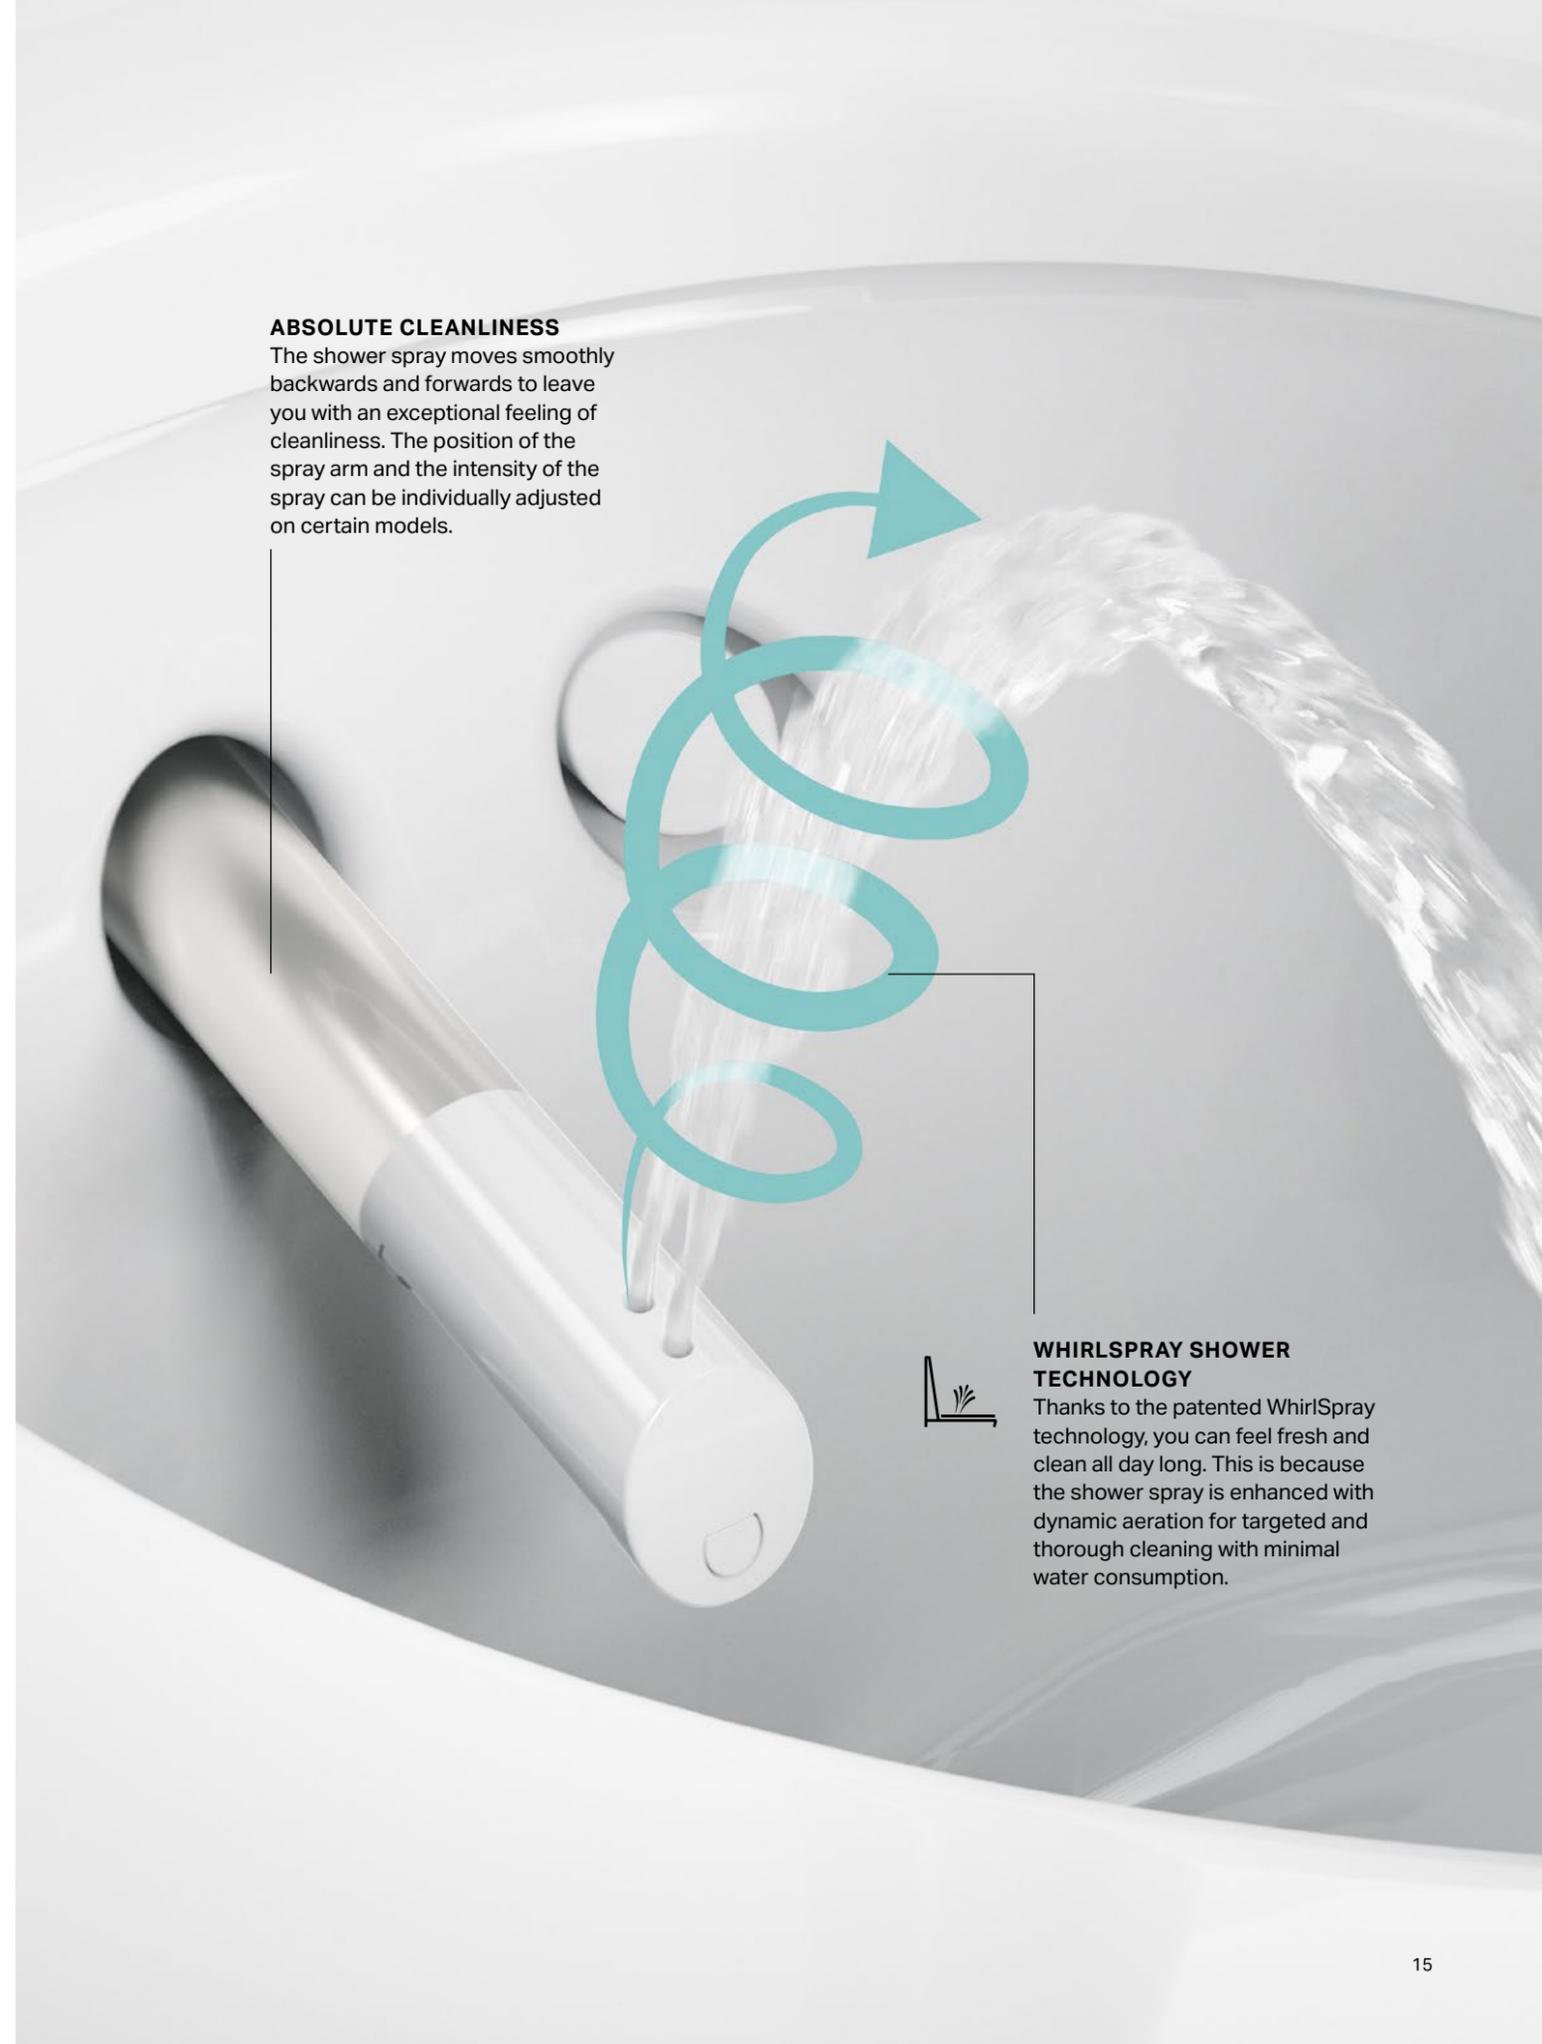

GENTLE DRYING
For soft, gentle drying, the warm air dryer is the perfect solution and features five individually adjustable temperature settings. The built in nozzle in the spray arm is protected when not in use.

PRACTICAL AND EASY TO MAINTAIN
From the easily removable seat and lid to the automatic descaling programme, Geberit AquaClean shower toilets are specifically designed to be cleaned and maintained with minimal effort throughout their long service life.

*Available on Geberit AquaClean Tuma Comfort shower toilet only.

ABSOLUTE CLEANLINESS

The shower spray moves smoothly backwards and forwards to leave you with an exceptional feeling of cleanliness. The position of the spray arm and the intensity of the spray can be individually adjusted on certain models.

WHIRLSPRAY SHOWER TECHNOLOGY

Thanks to the patented WhirlSpray technology, you can feel fresh and clean all day long. This is because the shower spray is enhanced with dynamic aeration for targeted and thorough cleaning with minimal water consumption.

COMFORT

GEBERIT DUOFRESH MODULE

UNPLEASANT ODOURS IN THE TOILET ARE A THING OF THE PAST

It is completely normal to have an extractor fan over a hob in a kitchen to remove unpleasant odours and now the same principle is available in the bathroom.

The Geberit DuoFresh module removes the bad air directly from the toilet ceramic appliance, purifies it using a ceramic honeycomb filter and then returns it to the room. This is extremely effective, as it prevents unpleasant odours from spreading throughout the bathroom in the first place, rendering air fresheners, lighting matches, opening windows and the like completely unnecessary. Thanks to a proximity sensor, the odour extraction always switches on automatically as soon as someone sits down on the toilet. Therefore, the odour extraction is a great idea for guest toilets. Benefit from additional comfort thanks to an LED orientation light and the insert for in-cistern sticks. The Geberit DuoFresh module can be easily installed in any Geberit Sigma cistern and can be combined with almost any flush plate from the Sigma range.

EFFICIENT
The air is purified by the ceramic honeycomb filter.

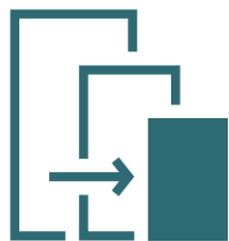

QUIET
A quiet fan conveys the purified air back into the room.

ACCESSIBLE
The ceramic honeycomb filter and insert for in-cistern sticks can be easily accessed via the flush plate.

GEBERIT DUOFRESH MODULE

HARMONIOUS BATHROOMS FOR ALL ROOM SIZES

The washbasins from the Geberit Selnova bathroom series are available in two different designs. Geberit Selnova has an evenly rounded basic form, inspired by organic and natural shapes. The design language of Geberit Selnova is characterised by a naturally soft geometry with gentle curves. What both designs have in common is the softly curving inner basin and a slim basin edge. Both can transform into a large tap hole bench to serve as storage space.

1 The soft curves of Geberit Selnova are adapted from nature. 2 Slim edge with a smooth transition to the storage space behind. 3 Washbasin solutions with a pedestal to conceal the trap.

GEBERIT VARIFORM

The Geberit VariForm design concept is based on the four basic geometric shapes; round, rectangle, oval and ellipse. Together with the VariForm bathroom furniture and its calm, understated design, the range now offers the creative freedom to design the bathroom exactly in line with one's own individual wishes. **Modular washbasin area solutions for absolute design freedom.**

CLEANLINESS

USABILITY

1 Lay-on washbasins with gently rounded elliptic shape, combined with wall mounted taps.
2 Lay-on washbasins with clean rectangular geometric shape, with deck mounted taps on base panel.

GEBERIT VARIFORM MODERN WASHBASINS

THE LATEST DESIGN TRENDS MADE VERSATILE AND ERGONOMIC

The streamlined rims of Geberit VariForm washbasins are the perfect match for cutting edge bathroom designs. The countertop and lay-on washbasins are available both with and without a tap hole bench. The tap can be installed as a deck mounted tap on the ceramic, or the base panel,

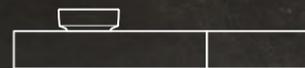

or alternatively, as a wall mounted tap on the prewall installation. All Geberit VariForm models feature a generous basin depth to ensure freedom of movement in ergonomic conditions. Made from high quality sanitary ceramic, the washbasins are scratchproof and resistant to cracks, as well as easy to care for.

GEBERIT VARIFORM WASHBASIN CABINETS FOR LAY-ON WASHBASINS

1 An ornate black edging provides for a striking visual effect on the narrow shelf surfaces. 2 The L-shaped washbasin cabinet offers even more storage space. 3 The interior can be used to its full potential thanks to drawers without a trap cut out.

FOR WASHBASIN AREAS WITH STYLE AND STORAGE SPACE

The calm, understated design of the Geberit VariForm washbasin cabinets gives the washbasin area a sense of lightness and perfectly complements the lean, modern design of the washbasins. The modular system permits flexible planning tailored to the space. The narrow washbasin cabinet is available in widths of 75 and 90cm, each with one drawer. The elements are additionally available as a set with a low cabinet of

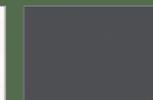

the same construction height, or in an L-shape with a larger low cabinet. If more storage space or two washbasins are required in the bathroom, different combinations can be connected with each other according to preference. The furniture comes in a wide range of design colours; white high-gloss coated, lava matt and hickory which blends in harmoniously with a wide range of styles.
