## **Sika<sup>®</sup> Primer MB** Moisture Regulator and Pretreatment for SikaBond<sup>®</sup> Adhesive Systems

# Permanently good-looking Quality Floors are bonded these Days and for that we need a sound Substrate

In Renovation as well as new Construction there is always the Question of Substrate Quality.

The substrate is too humid and there is time pressure ...

The substrate is not strong enough ...

Unsure about old adhesive residues or asphalt-based substrates ...

## For a better Substrate Quality: Sika® Primer MB

The solution for permanently good-looking floors: Sika® Primer MB, a 2-component resin-based primer and moisture regulator for bonding wooden floors with SikaBond® adhesives on critical substrates.

### Advantages

- Solvent-free
- Easy to apply
- Excellent penetration
- Multifunctional
- High stabilization
- Reduction of construction period
- Reduction of adhesive consumption

SikaPrimer MB penetration

### Moisture Regulator for

- Cementitious substrates

### Substrate Consolidation for

- Cementitious substrates
- Anhydrite
- Old substrates

### Adhesion Promoter for

- Coating of asphalt-based substrates
- Old adhesive residues
- Cementitious substrates
- Anhydrite
- Old substrates

SikaPrimer MB can only be used together with SikaBond adhesive systems

# SikaBond® Wood Floor Bonding Systems

Sika®Primer MB  
Sika® AcouBond System  
SikaBond®-T52/53  
SikaBond®-T54/55  
SikaBond®-62 AT/64 AT
