

Column Boards

Code: W500

Our TeacherBoards Column Boards offer an ideal solution to maximise your writing surface potential in large auditorium spaces and University lecture theatres. This product provides a flexible and moveable learning resource that can also incorporate projection or interactive screens. We are also able to install projection screens behind the columns to expand your ergonomic learning space further. These magnetic powder coated boards feature the finest craftsmanship and every board is precision engineered to suit your space and requirements. Even our large 5m boards can glide up smoothly with the touch of a fingertip.

Our Column Boards are available in single, double or triple surfaces. Each system is measured by our project team and installed by our own experienced installation engineers. From newly built structures to historic environments, we can provide the perfect combination of boards to enhance the learning experience for all your students.
