Titan offers a wide range of high quality accessories to finish your installation. Details such as recessed plug sockets, magnetic blinds and access panels complete the superior appearance of Titan

- Recessed plug sockets and integral wire ways
- Magnetic blinds
- Service panels
- Removable panels
- Recessed panel bottoms for rolled flooring

Bespoke accessories to suit your requirements are available upon request

ADVANTAGES

Accessories such as magnetic removable panels can be a simple solution for applications that require a large access area.

APPLICATIONS

Flush plug sockets with our new integral CLS (cable logistics system) make a huge improvement on cleanliness, functionality and aesthetics.

FEATURES

Service panels provide a professional way of concealing services while allowing easy access if necessary. Service panels have a neoprene seal and a range of locks are available.

Magnetic blinds are controlled by a removable control knob.

Flush plug sockets are a huge improvement over external trunking and bulky sockets.

A wide range of access panel sizes are available to suit a range of applications.

Panels can have a recessed bottom section to allow for flush rolled flooring.

FACTS

Specific panels can be selected to channel wiring to suitable points at your installation. All wire ways are integral and can be made to suit individual requirements.

Magnetic blinds keep the panel face completely flush, avoiding unnecessary particle traps.

ACCESSORIES OPTIONS

Standard polyester powder coat:
White/RAL 9010

Non standard and corporate colours are also available upon request

- Hinged doors with a variety of furniture options are available
- Ceilings (composite panels or lay in grid tiles)
