#### Specification:

Length: 1800mm  
Height: 450mm  
Depth: 570mm

The Toso bench is formed from three bridge profiles in 150 x 30mm steel tube, spaced apart by two 50 x 30mm steel tube elements. These are linked with 14mm diameter stainless steel tube spacers.

The spaces created between the profiles can be used as bike racks.

The bench is available in a version with drilled base plate for ground fixing with M8 bolts (not included) or with threaded bar to concrete directly into the ground.

The structure is hot zined and polyester powder coated.
