Characteristics

Super Prime Walnut is a tough, strong and sturdy wood which is highly stable and long-lasting. Offering a sumptuous colour and elegant straight grain, it's rich, dark wood grained structures combined with a hint of sapwood, produce highly attractive contrasts.

As well as a wonderful tactile quality, American Walnut is timeless, providing a modern, classic and comfortable feeling, adding warmth and character to any environment in which it is being used.

Applications

Super Prime Walnut is widely used for furniture, cabinet making, architectural interiors, high class joinery, doors, flooring, panelling and shopfitting.

Sizes

Thickness: 1", 1 ¼", 1 ½", 2", 2 ½", 3", 4"

Widths: 5" + selected to be above average width!
9" available on request (limited stocks)

Lengths: 7-14'

The colour of Super Prime Solid Walnut boasts a unique and stunning earthy brown hue, which varies between cinnamon and chocolate.

It also finishes beautifully giving an excellent decorative appearance due to its outstanding grain, colour and pattern. Grain patterns vary from very plain to highly figured.

Our suppliers

We regularly visit the USA working exclusively with selected saw mills in Mid-West America, the heart of Walnut country, where the finest Walnut logs grow. Often the logs used in production are ex-veneer grade, resulting in less natural defect, therefore offering a wider, clear cutting in use.

Our saw mills kiln and steam the product under very specific conditions, using techniques acquired over generations, producing what we believe to be the best American Black Walnut available.

We can also offer a log sawn 'through-and-through' product. Sourced from the Allegheny National Forest in the heart of Pennsylvania, these logs are of superior quality and offer the option of wide boards with minimal sap and excellent colour consistency. Perfect for high-end furniture manufacturing or bespoke joinery projects where a little more time and expense is necessary to achieve the required look.

The mark of
responsible forestry

Finally, the Super Prime Walnut we offer is harvested from sustainably managed, hardwood forests in North America and is available as FSC® certified if required.
