# The *Classic* Range

Combine the aesthetic appeal of hardwood with the benefits of softwood

The Classic Range is a stained softwood which when installed has the visual appeal and colouring of a hardwood deck with all the benefits of quality softwood.

- Easy to work with and install (no pre drilling)
- Weathers consistently and more slowly to a silver grey like all timber (including hardwood)
- More stable and less prone to distortion and movement
- Natural look of timber
- Characteristic even brown colouration
- Sources from well managed Scandinavian forests
- PEFC and FSC

## Why use Timber Decking?

- Sustainable
- Aesthetically appealing
- Easy to maintain
- Inclusivity and accessibility
- Health and safety performance
- Longevity

## **JB** | CitiDeck

**Characteristic smooth profile with smoother antislip inserts. Ideal for the urban environment and inclusive access.**

- *Easy to clean*
- *Less abrasive grit to provide a more even surface for wheelchairs, prams and the less able.*
- *Available strength graded to C16 or C24*
- *Treated to either 'Use Class 3' or 'Use Class 4'*
- *Exceeds the HSL's anti-slip testing guidelines.*

## **JB** | AntislipPlus

**Castellated profile with coarse antislip inserts. Ideal for rural areas and marine/wet environments.**

- *Castellated profile with coarse antislip inserts*
- *Superior performance for high slip risk areas*
- *Suitable for rural footpaths and bridal ways*
- *Available strength graded to C16 or C24*
- *Treated to either 'Use Class 3' or 'Use Class 4'*
- *Exceeds the HSL's anti-slip testing guidelines.*
