

Asphalt

Superdrive®

Superdrive® has been specifically designed for domestic drives to give an aesthetically pleasing finish whilst being tough enough to cope with the demands of wear and tear from shear forces exerted by the turning wheels of private vehicles.

Bardon Superdrive is also available as a part of our Plus range (Bardon Superdrive Plus) to give additional properties such as fuel resistance and better hand-laying performance through use of a modified binder.

- Aesthetically pleasing
- Tough and durable
- Highly resistant to scuffing and tearing from tight turning vehicles
- Can be pigmented in:
 1. Standard - basic level of pigmentation
 2. Advanced - increased level of pigmentation for deeper colour saturation
 3. Extra - uses a complementary coloured aggregate for a longer lasting colour effect
- 'Plus' range offers some fuel resisting properties, and improved laying workability.

Layer

Surface course; nominal layer thickness 25 - 30mm.

Applications

- Domestic drives
- Commercial car parks.

Sustainability and local sourcing

Energy use: Aggregate Industries is at the forefront of sustainability and has committed to reduce carbon emissions by 20% by 2016 based on a 2012 base line.

Recyclable: 100% of the product can be recycled thus reducing the amount of material that is sent to landfill.

Manufacturing location: Produced in the UK, under strict environmental and social legislation.

Responsible sourcing: Aggregate Industries is the first company in the world to achieve a BES 6001:2008 Responsible Sourcing Certificate from BRE Global. Products are assessed on:

- quality management
- environmental management
- health and safety management
- greenhouse gas emissions
- minimising raw material usage
- labour practice
- biodiversity
- community engagement.

Superdrive is certified as EXCELLENT under the BES 6001 standard.

Aggregate

Superdrive and Plus is available using a range of standard 6mm aggregates.

Binder

Superdrive uses a 50pen bitumen whilst Superdrive Plus uses a modifier that allows a softer grade to be used for better workability whilst giving equivalent performance in use.

Installation

Available through either Aggregate Industries or approved licensed contractors.

Manufacturing standard

All Aggregate Industries' products are manufactured in accordance with ISO 9001 and Highway Sector Scheme 14 with factory compliance to ISO 14001.

Policies

Aggregate Industries' policies on the environment and community, health and safety and sustainable solutions for different product applications can be viewed on our website www.aggregate.com

Health and safety: COSHH data

Full COSHH data on asphalt products is available on request. Please call the technical helpline on 0845 600 0860.

Technical support

Detailed guidance and assistance with the preparation of specification and use of asphalt products is available through the sales office. A free technical service is also available.

For further information, please refer to our asphalt technical services on 0845 600 0860.
