

Exit Lane Breach Control

Creating Secure Environments

FlipFlow

Security and Safety

Preventing unauthorised access

- Over 17 years experience in providing reliable exit lane solutions
- Over 1 100+ proven, successful installations throughout the world
- Highest security level – driven by continuous innovations
- Many long term relationships with customers

The record FlipFlow provides a high level of security for a wide range of applications. The user friendly, one-way traffic, security system delivers a high volume throughput, without jeopardising controlled access.

Featuring advanced detection and control technology, integrated with functional and reliable barrier components, the FlipFlow provides security and safety in a practical, modular construction. The non-intrusive style does not impede pedestrian flow. The structural design is robust and easily maintained. Delivers safety and security at the desired level while being user friendly and easily maintained.

FlipFlow

Product range overview

Different concept for different needs

						
FlipFlow Version	WIDE	SINGLE	TWIN	TRIPLE	Customized lane designs**	Option: extended
Auto flow / interlock	–	–	●	●	●	●
Throughput flow	3 600 - 4 500 per hour		3 600 - 4 500* per hour			No influence
Throughput interlock	n/a		Approx. 500* per hour			No influence
record security level	●	●●	●●●	●●●●	●●●●●	+1 ●
Application examples	customs exits, security staff in immediate vicinity		barrier between airside / landside, exit baggage claim, automatic security staff alert			
Use / Application field	after baggage claim, exiting customs or used as a secure emergency egress opening	passport control	barrier between airside / landside transition areas to secure zones after baggage claim exit areas in airports automatic security staff alert customs exit			

* Test automatic change from interlock to flow mode for higher throughput depending on counting of passengers

** customer specific solutions possible (e.g. 90° tunnel or other angled executions, side-by-side solutions, frosted glass)

Effective flow control

High-volume throughput

3D imaging technology

- Reliable anti-return detection
- Works in total darkness
- Sabotage detection

Static object detection

- on floor
- on side screens
- on ceiling

Energy saving LED spots in the ceiling

LED status indicator

LED running lights for passenger guidance

- green wave: flow mode
- Static red: anti-return alarm
- Flashing yellow: technical alarm

Simple maintenance and troubleshooting via tablet / smartphone

Remote access (Ethernet or Relay)

- Status information
- Various alarm signals
- Operating mode change

record REAL TIME monitoring software

- Live status of all FlipFlows
- Live status, logs, automatic alerts

Key Features

- Efficient and economic no-return system with high throughput
- Ensure highest level of security in secure areas (border, airside-landside, passport control, baggage claim & more)
- Configurable security level and multiple sensor options
- Innovative 3D imaging technology
- Allows reallocation or exclusion of security guard staff
- Fits easily into existing exit corridors
- Side-by-side installations possible
- Aluminum or stainless steel versions
- Four widths available: 650, 900, 1100, 1200 mm

Operation modes

- **Flow:** doors open and close automatically, security and safety is active
- **Interlocked:** Flow mode, but one door is always closed, security and safety is active
- **Auto Flow Interlock Mode:** automatic switch from Interlock Mode to Flow Mode as passenger volumes increase, in order to avoid queues while ensuring high security
- **Open:** security inactive, doors held open for VIP passage, emergency ingress & egress, etc.
- **Cleaning / maintenance:** security inactive, controlled access provided for service and cleaning personal only.

Details and sizes

Data

WIDE

→ Total length	2 248 mm
→ Total height	2 365 mm
→ Clear height	2 150 mm

TWIN

→ Total length	5 242 mm
→ Total height	2 365 mm
→ Clear height	2 150 mm

TRIPLE

→ Total length	6 570 mm
→ Total height	2 365 mm
→ Clear height	2 150 mm

OPTION EXTENDED

→ Total length	1 999 mm
----------------	----------

VALID FOR ALL SYSTEMS

→ Clear widths	650, 900, 1 100, 1 200 mm
→ Total widths	980, 1 230, 1 430, 1 530 mm

Our statement

record – the right partner for your needs

Our top priority is your complete satisfaction with the quality of our products and services.

By this we mean:

- Individual, professional advice in choosing security access solutions
- A wide range of high tech products to meet any security automation requirement
- Contemporary designs which are compatible with any architectural style or plan

Twenty-two subsidiaries in Europe, Asia and the United States, provide over 50 years of experience in manufacturing, sensor technology, electronics and software development for automatic door systems and related products. Satisfied customers all over the world have chosen record as their partner, make record the right partner for your installations too.
