

HELO CASE STUDY – BABINGTON HOUSE – SOMERSET

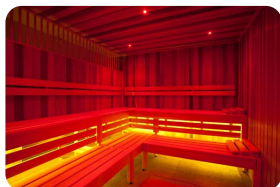

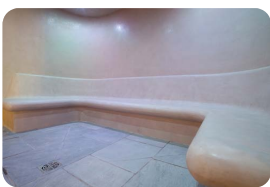

CLIENT: McIntosh Homes
SITE: Babington House, Somerset
OPERATOR: CowShed Spa
PROJECT: Sauna, Steam and Hammam

Helo UK is pleased to announce the completion of a new luxury Sauna, Steam and Hammam suite for CowShed Spa at Babington House in Frome, Somerset.

Working closely with the developer, McIntosh Homes, Helo created a stunning Moroccan themed spa at Babington featuring traditional Tadelakt plasterwork in both the steam room and hammam. A spacious and elegant facility for this flagship installation.

GENUINE SAUNA & STEAM

BABINGTON HOUSE: SOMERSET

A: Hammam Suite

With authentic Tadelakt plaster finishing, this traditional heated room radiates with softness and luxury. Colour changing mood lights enhance the warm and relaxing atmosphere.

B: Red Cedar Sauna

Designed by Helo using Red Cedar panelling laid vertically to give a deep, textured look. Ceiling and under-bench mood lighting and aroma therapy combine to complete the bathing experience.

C: Steam Room

Once again, the traditional Tadelakt plastering technique has been used to create a genuine Moroccan feel. Tadelakt, which was originally made from lime only found in and around Marrakech, is both decorative and waterproof, making it an ideal finish for steam rooms.
