2011 ■

As one of Germany's leading manufacturers, Kermi offers a comprehensive range of shower enclosures, bath screens and design radiators which are second to none. Interesting solutions at affordable prices without sacrifice to aesthetic design or engineering. Kermi is synonymous with innovative design, quality guarantee and perfect functionality.

To complement showering products, Kermi & Arbonia have developed a revolutionary range of design radiators which will satisfy the demands of the most discerning customer, appealing to individual tastes and adding that certain ambience to the home.

Our contract sales force offer a dedicated service including site meetings, technical support, site specific quotations and product training. Our regional sales managers will ensure that pricing is controlled and a robust supply chain is maintained via your chosen distributor.

As a company Kermi place great store in training. Our sales and technical managers are readily available to provide both product and on-site installation training wherever necessary.

All products are stringently tested by TÜV for stability, spray-water density and ease of cleaning.

We guarantee availability of spare parts for 10 years following the discontinuation of a product range.

Accredited to DIN EN9001:2008 quality management system. Responsible environmental management according to DIN EN 14001:2004.

All Kermi products are manufactured from high quality safety glass in accordance with EN 12150.

All products are manufactured to the highest quality standards in accordance with EN 14428.

Products are guaranteed for 10 years against manufacturing defects.

Exclusively manufactured in Germany.
