

TOWEL RAILS

Creative heating design for a modern bathroom and living room culture

Individual designs and high quality manufacturing processes make Kermi and Arbonia design radiators the ideal choice for your bathroom, kitchen or living area.

Our design radiators have been recognised and received numerous awards world-wide for their design, quality and superior finish. Whilst traditionally used in the bathroom area, the wide range of colours and finishes means that the products can be used as a feature in any room.

Water and warmth are our world

Comfort and freshness, Kermi provides both in a unique and competent way, with the knowhow of more than 50 years of experience.

Kermi is among the leading European manufacturers for heating technology and shower enclosure surrounds, offering modern technology and trend-setting design solutions for your home and commercial installations.
