Designing your next commercial property?

Give it the authentic 'New England' look with Cape Cod cladding – exclusively distributed into the UK by Vincent Timber. This solid wood cladding system is incredibly durable and low maintenance with all the right environmental credentials. It's PEFC certified – with all timber procured from sustainably managed forests.

Once the preserve of residential properties, Cape Cod is now enjoying the same success across the European commercial sector. And when you see Cape Cod in action, it's easy to see why. Stylish, natural and environmentally sound, as well as available in virtually any colour imaginable, it is the perfect cladding system for schools, healthcare facilities and office buildings of any size. Turn a bright idea into reality

Add a splash of New England colour to your next project with a stunning Cape Cod cladding system – available in ten standard colours. And if you've got something more specific in mind, our colour laboratory can give you the perfect colour match. You will also receive a colour sample that shows you exactly how the cladding will look once installed, so you can be sure that your needs will be met first time, every time.
