

Technical Data

Wall lining: Marbrex

Composition and manufacture

PVC panels: available in varying widths from 250 to 375mm; lengths from 2.6 to 4m depending on style. The open-cell structure assists in insulating the room and thus reduces condensation. The wide range of designs allows different effects to be achieved.

Accessories

A comprehensive range of corner and joint trims ensures a professional finish.

Appearance

A range of panels is now available that allows the design to be enhanced by the addition of continuous Gold or Silver decorative strips between panels.

Performance

Conforms to Class 1Y fire rating.

Marbrex also conforms to the requirements of the Food Safety Act, 1990 and General Hygiene Regulations, 1995.

No maintenance is required, other than a wipe down with soapy water.
